FOREWORD

Dear Student,

Rwanda Basic Education Board is honoured to present to you Music, Dance and Drama book for Senior One which serves as a guide to competence-based teaching and learning to ensure consistency and coherence in the learning of Music, Dance and Drama subject. The Rwandan educational philosophy is to ensure that you achieve full potential at every level of education which will prepare you to be well integrated in society and exploit employment opportunities.

The government of Rwanda emphasizes the importance of aligning teaching and learning materials to facilitate your learning process. Many factors influence what you learn, how well you learn and the competences you acquire. Those factors include quality instructional materials available, assessment strategies for you among others. Special attention was paid to activities that facilitate your learning process that develops your ideas and make new discoveries during concrete activities carried out individually or with peers.

In competence-based curriculum, learning is considered as a process of active building and developing knowledge and meanings by the learner where concepts are mainly introduced by an activity, a situation or a scenario that helps the learner to construct knowledge, develop skills and acquire positive attitudes and values.

For effective use of this textbook, your role is to:

- Work on given activities which lead to the development of skills
- Share relevant information with other learners through presentations, discussions, group work and other active learning techniques such as role play, case studies, investigation and research in the library, from the internet or from your community.
- Participate and take responsibility for your own learning.
- Draw conclusions based on the findings from the learning activities.

To facilitate you in doing activities, the content of this book is self-explanatory so that you can easily use it by yourself, acquire and assess your competences. The book is made of units whereby each unit consist of: the key unit competence, followed by the introductory activity before the development of Music, Dance and Drama concepts that are connected to real world situation.

I wish to sincerely extend my appreciation to REB staff who organized the editing process of this textbook. Special gratitude also goes to lecturers, teachers, illustrators and designers who supported the exercise throughout. Any comment or contribution would be welcome to the improvement of this textbook for the next edition.

Dr. MBARUSHIMANA Nelson

Director General, REB

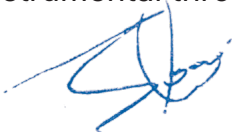

ACKNOWLEDGEMENT

I would like to extend my sincere appreciation to everyone who contributed to the refinement of the Music, Dance and Drama in Senior One. This achievement would not have been possible without the active involvement of various stakeholders.

Special thanks go to Rwanda Basic Education Board (REB) staff, subject experts, university lecturers and teachers for their valuable work in the writing of this textbook.

I am also grateful to all our education development partners whose support was instrumental throughout the process.

Ms. MURUNGI Joan,

Head of Curriculum, Teaching and Learning Resources Department/REB

Introduction

The benefits of Music, Dance and Drama education are immense and highly beneficial to children. For Senior One, Music, Dance and Drama is a fun and practical subject that helps you pupils to learn by doing. It is made to help enjoy the music atmosphere by singing, playing instruments, and enjoying other music activities. This book has three units that will give you time to practice and grow your talent in music. As you learn, you will become more confident, creative, and ready to begin your journey as a young music performer.

Before you use each unit, always first read and understand what you will be able to learn and do after using the unit. This will help you not to waste your efforts on what is not needed at the time. So, you have to keep in focus.

Learning by doing (practice)

Music, Dance and Drama is an area of study which is by means of acquiring knowledge and understanding it, skills, values and attitudes. These units, therefore, require you to participate in different activities as much as you can to become a skilled performer, composer and maker of creative arts.

You are advised to be cooperative with fellow students as much as you can in this area to learn and perform entertainingly. Be ready to work in groups with many teammates as much as possible to learn from them as they too learn from you.

Students are expected to gain a lot from each other as they get involved in discussions. Be prepared to talk freely and respect each other's different ways of thinking and looking at things.

Performance

In every lesson of unit, you will be given a chance to perform Music, Dance and Drama. These sessions should help you to acquire skills to your fullest. Please, note that some of these skills sometimes develop slowly by slowly with practice.

Field work

Since music, dance, and drama are cultural products that largely already exist within our communities, you will be required to gather information directly from the community about the types of music practiced. Your teacher will guide you on how to do this using written notes and, where possible, electronic recordings. This can also be done using a mobile phone

Materials and tools

Materials and tools to help you in your learning will include various instruments, computers, and other electronic devices. Always keep them safe from damage. Be a responsible creative artist.

Marks scored

You will compose/make, perform and draw art works. Your classmate and the teacher will be awarding you with the marks you deserve. You therefore must work very hard to be encouraged by good performance.

There will be performances of Music, Dance and Drama by both individuals and groups of students. For the case of group activities, all participants share the mark or grade. Therefore, you are encouraged to be an active member of the group so that you contribute to the good marks which you will all get.

Best wishes

By the end of this Music, Dance and Drama subject in Senior One, you will have learnt to sing, dance, act and write music, draw and make beautiful and interesting art pieces. We wish you great success.

Activity-based learning

This means that this book has a variety of activities for you to do, as well as information for you to read. These activities present you with material or things to do which will help you to learn by yourself. You already have a lot of knowledge and ideas based on the experiences you have had from your own community. Some of the activities, therefore, ask you to think about the knowledge and ideas you already have.

In using this book, therefore, it is essential that you do all the activities. You will not learn properly unless you do these activities. They are the most important part of your book.

In some ways this makes learning more of a challenge. It is more difficult to think for yourself than to copy what the teacher tells you. But if you take up this challenge you will become a better person and become more successful in your life.

Group work

You can also learn a lot from other people in your class. If you have a problem, it can often be solved by discussing it with others. Many of the activities in the book, therefore, involve discussion or other activities in groups or pairs. Your teacher will help to organize these groups and may arrange the classroom so that you are always sitting in groups facing each other. You cannot discuss properly unless you are facing each other.

Research

One of the objectives of the Competence Based Curriculum is to help you to find things out for yourself. Some activities, therefore, ask you to do research using books in the library, the internet if your school has this, or other sources such as newspapers, magazines, home and the community. This means you will develop the skills of learning for yourself when you leave school.

UNIT DEVELOPMENT: 1

UNIT 1: MUSICAL LANGUAGE

Key unit competence

By the end of the unit, each student will be able to sol-fa musical notes according to their pitches and rhythms.

Domain expected learning outcomes

Knowledge

- Identify the components of the musical staff, including lines, spaces, ledger lines, and the structure of the treble staff, bass staff, and the Grand Staff.
- Recognize note names, notes and rest symbols with their values.

Skills

- Read and accurately use music notation on the staff, including lines, spaces, ledger lines, and the structure of the treble staff, bass staff, and the Grand Staff, as well as note names, note symbols, and rest symbols with their values.

Attitudes

- Show confidence when reading, performing, or creating music.
- Demonstrate curiosity and openness toward different musical styles and expressions.
- Participate actively and responsibly in group music activities.
- Appreciate accuracy, discipline, and consistency when working with music notation.

1. Introduction

This unit introduces Musical Language, helping learners understand musical symbols, rhythm, notes, and pitch to read, write, perform, analyze, and create music while developing creativity, communication, and collaboration skills.

Introductory activity1

Recite the lyrics given below by:

MUSICAL LANGUAGE

Mu - sic lan - guage is the use of signs and sym - bols. the

Mu - sic lan - guage is the use of signs and sym - bols. The

use of signs and sym - bols, the signs and sym - bols.

use of signs and sym - bols, the signs and sym - bols.

Questions on the introductory activity:

1. By repeating the song and following what is written, study the different symbols used in music. Count the number of lines for each part, the mathematical fractions at the beginning of the musical phrase, the way the lines are joined together, and the other symbols present. Then understand that each symbol has its own role in music. Finally, deduce the definition of music
2. By paying attention to each syllable of the song, classify the symbols representing each syllable according to their duration.

1.1. Musical staff

Learning activity 1.1

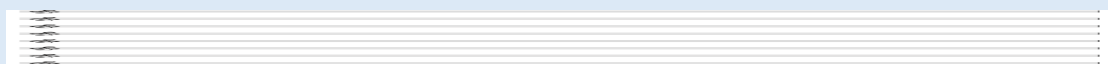

By imitating the figure above, draw four of them, paying attention to the spacing between the lines, the number of lines, and the spaces between the lines.

1. How many lines are there in the figure?
2. How many spaces did you find?
3. What can be concluded when we observe that the space between each line is the same?

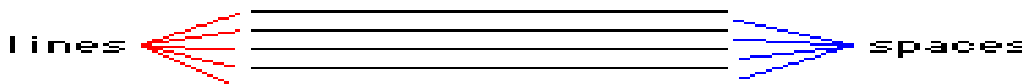

Compare this structure with the one found in the song **"Musical Language."** What do you conclude?

The musical staff is the set of five horizontal, parallel, and equally spaced lines and four spaces on which music is written.

1.1.1. The staff

In music notation, the staff forms the foundation of written music. It is the framework on which musical notes are written. It consists of 5 lines with four spaces between them. A simple, unadorned staff is shown below:

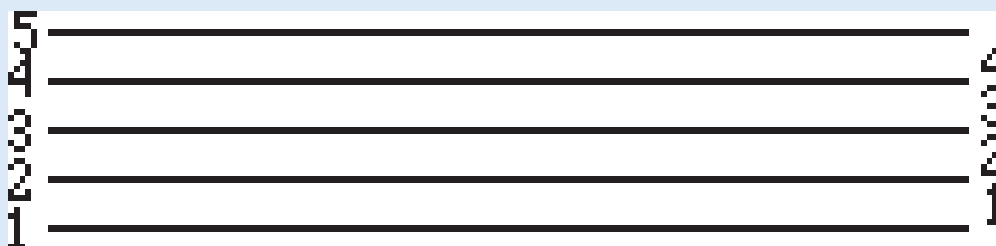

1.1.2. Lines and Spaces

The lines and spaces are the components of the staff (or stave), the five parallel lines on which music is written.

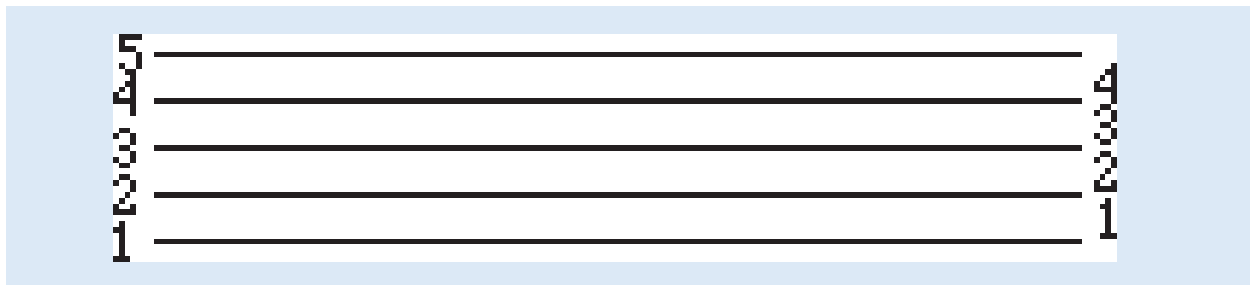

❖ Lines

The lines are the five, straight and horizontal that form the musical staff. These lines are parallel to each other and help us show different musical sounds (pitches). Each line stands for a different pitch. When counting the lines, we always start from the bottom line (the lowest sound) and move up to the top line (the highest sound).

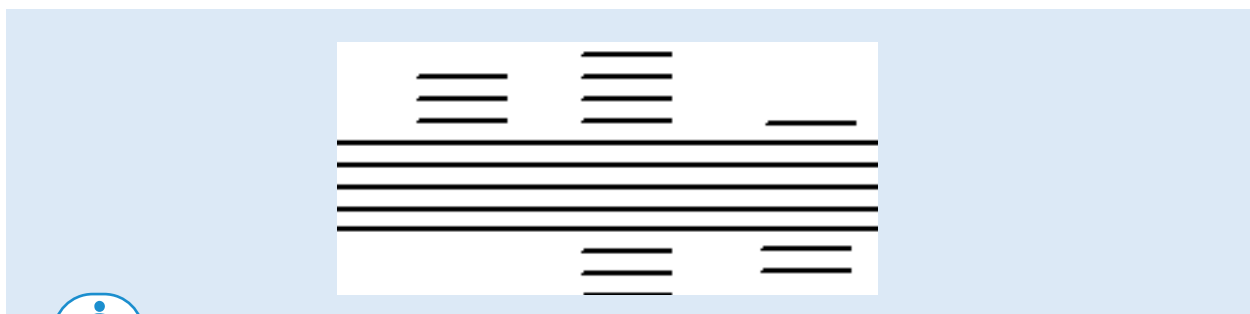

❖ Spaces

The spaces are the four empty areas or gaps found between the five lines of the staff. Like the lines, each space represents a specific musical pitch. The spaces are also counted from the bottom up (from the lowest space to the highest space).

1.1.3. Ledger lines

A ledger line is a short line placed above or below a staff to accommodate notes higher or lower than the range of the staff. Ledger lines are used when notes are too high or too low for the staff. They work like staff extenders.

APPLICATION ACTIVITY 1.1

Draw your own figure based on the model observed and count the spaces between the lines.

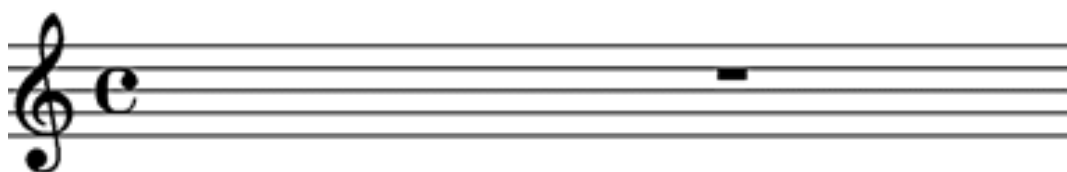

Draw two blank musical staves in your notebook and number lines, spaces, and ledger lines.

1.2. Musical clef

Learning activity 1.2

1. Observe the following diagrams and name the symbols that you see on it:

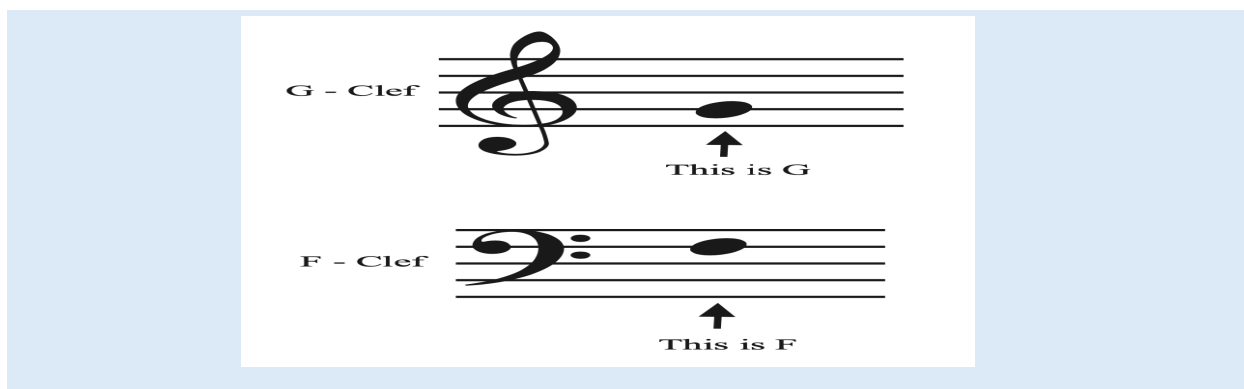

2. Draw a music clef if you know any.

1.2.1. What is a clef?

A clef is a sign at the beginning of the music staff. It tells us the name of the notes we will read. There are three different clefs such as: Treble Clef (also called the Sol Clef or G-Clef), and locates the note G above middle C. Bass Clef (also called F-Clef), locates the note F below middle C; and Alto/Tenor Clef (also called C-Clef), locates Middle C. at our level, we will focus on the G-Clef because it is the most common, the most relevant to early vocal training, and the easiest way to begin reading music notation, while the Bass Clef (F-Clef) and C-Clefs are essential for other instruments and low voices.

1.2.3. The treble clef

The Treble Clef's curve wraps around the second line from the bottom, making that line the note 'G'.

APPLICATION ACTIVITY 1.2

1. Draw a staff and three treble clefs on it.
2. What is the role of a key in everyday life, and what is its role in music?

1.3. Musical notes

Learning activity 1.3

1. Observe the following symbols and give the difference between them:

2. With reference to the introductory activity, how is the duration of notes shown when writing music?

Musical notes are symbols that show a sound's pitch (how high or low it is), duration (how long it lasts), and intensity (how strong it sounds). Notes help us read, write, and perform music, and they form the basis of scales, chords, and melodies.

1.3.1. Note names

There are seven musical notes, written with letters and solfa names:

C	Do
D	Re
E	Mi
F	Fa
G	Sol
A	La
B	Si

Musical notes have a long history. In the 11th century, Guido of Arezzo, an Italian music theorist, created the first system of naming notes using the hymn "Ut Queant Laxis." The names later changed, and "Ut" became "Do" in the 17th century.

On a musical staff, notes are written on lines and spaces, and we read them from bottom to top. Each line or space stands for a different musical pitch.

1.3.2. Note symbols

In music, a note symbol is a written sign that shows the pitch (how high or low a sound is) and the duration (how long the sound should be played) of a musical note.

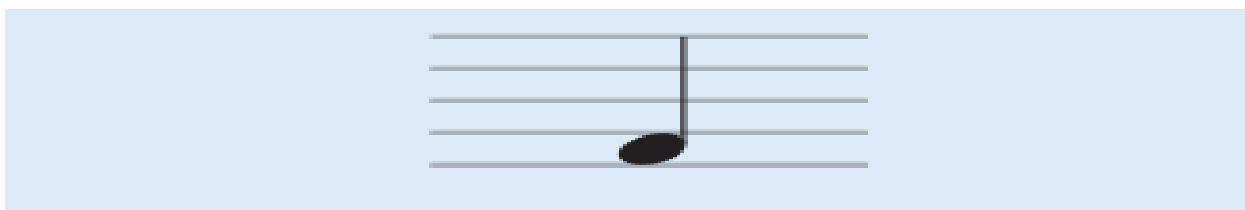

Semibreve/Whole note

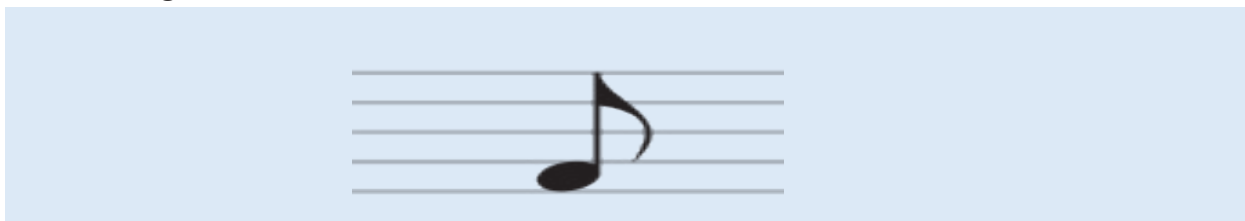

A semibreve is the longest note we commonly use in music. It looks like a round oval shape (O). When you draw it on a line, the line should pass through the middle of the note. When it is in a space, it must sit exactly between the two lines.

Minim/Half note

A minim has a head and a stem. A head is not shaded.

Crotchet/Quarter note

A crotchet has a head and a stem. A head is shaded.

Quaver/Eighth note

A quaver has a head, a stem, and one hook (flag or tail). A head is shaded.

Semiquaver/Sixteenth note

A quaver has a head, a stem, and two hooks (flags or tails). A head is shaded

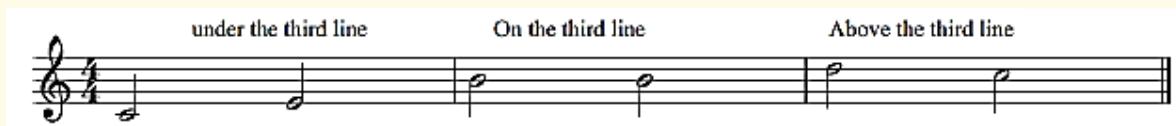

Notice:

1. A standard music note has three main parts that tell us its value:
 - a) Flag/Beam: The curved or horizontal line(s) that indicate the note's short duration.
 - b) Stem: The vertical line connected to the head.
 - c) Note Head: The oval part, which shows the pitch (by being on a line or in a space).

2. If a note is placed above the third line of the staff, the stem faces downwards. When it is below the third line of the staff, the stem faces upwards. If it is on the third line, the stem may face downward or upwards.

Example:

1.3.2. Musical note values

In music notation, a note value shows how long a note should be played. This is indicated by the shape of the note head, whether the note has a stem or not, and whether it has flags, beams, hooks, or tails. Basic note values are fractions that divide by two, such as one whole, one-half, one-quarter, and so on.

Semibreve/Whole note

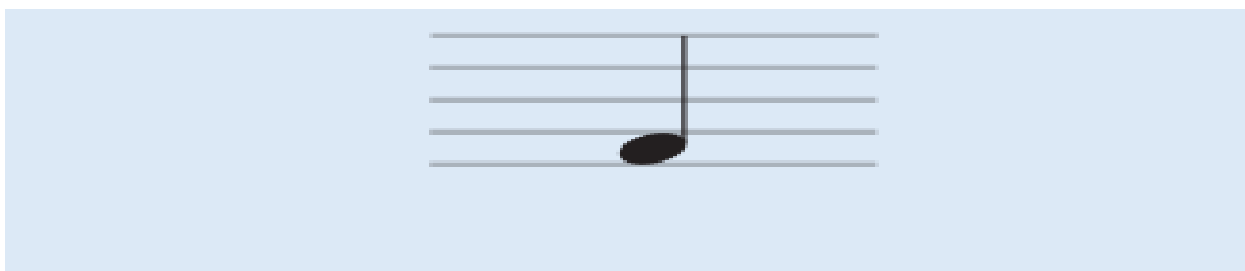

The whole note is worth 4 beats.

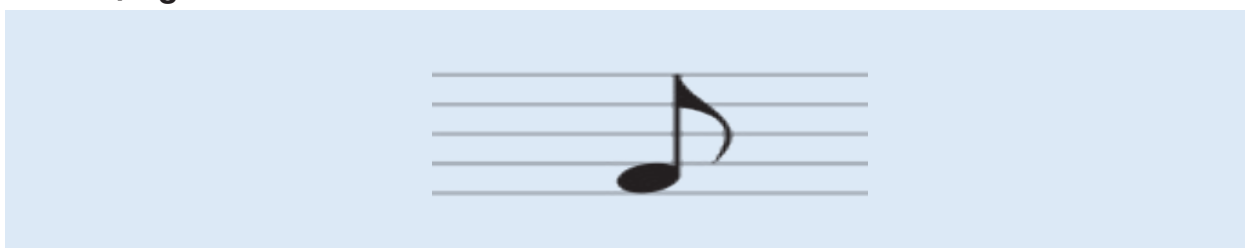

Minim/Half note

The half note is worth 2 beats, which means that it takes two half notes to equal one whole note.

Crotchet/Quarter note

The quarter note is worth 1 beat, which means that it takes four quarter notes to equal one whole note.

Quaver/Eighth note

The eighth note is a fast sound, worth half a beat, which is shown by its single flag, and when two of them are beamed together, they create one full beat. It takes 8 eighth notes to equal one whole note.

Semiquaver/Sixteenth note

The Sixteenth note (Semiquaver) is a very fast sound, worth one-quarter of a beat, which is shown by its two flags; when four of these notes are beamed together, they create one full beat, and it takes sixteen of them to equal a whole note.

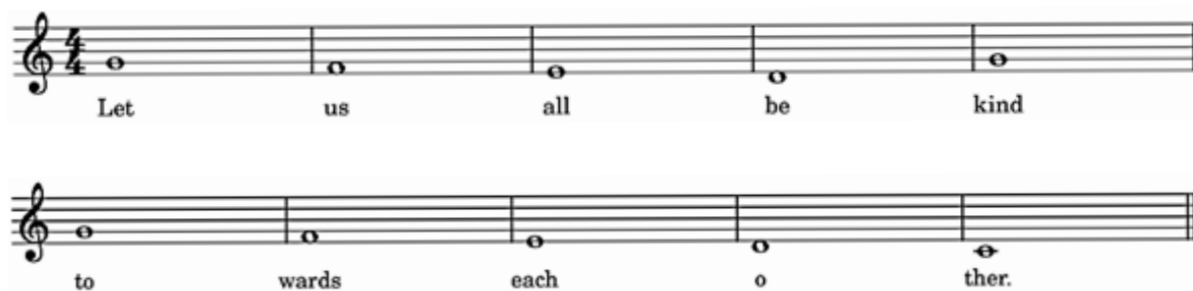

**APPLICATION ACTIVITY 1.4**

1. Identify and label the three main parts on each note symbol.
2. Draw a variety of notes on the board (e.g., a quarter note, a half note, an eighth note).
3. Draw the correct note symbol on the staff to match the name listed below. Remember to draw the stem in the correct direction:
 - a) Draw a note with a filled-in head and a stem
 - b) Draw a note with an empty head and no stem

4. Write down how many notes are needed to equal the notes in the following questions:

- One half note (Minim) is equal to how many quarter notes (crotchets)?
- One quarter note (Crotchet) is equal to how many eighth notes (quavers)?
- One half note (Minim) is equal to how many eighth notes (quavers)?
- Four sixteenth notes (Semiquavers) are equal to how many quarter notes (crotchets)?

5. By respecting the four counts and pitch per each note, try this song

1.4. Musical rests

Learning activity 1.4

1. Observe the following symbols and give the difference between them:

2. When we write music, how do we call the periods of silence when a performer stops for vocal control and how long that period should last?

3. What symbols do we use to represent those silence durations?

1.4.1. Definition

A Musical Rest is a symbol used in music notation to indicate a period of silence. It is the musical equivalent of a note, but instead of specifying a sound, it specifies a pause.

1.4.2. The symbols and values of musical rests

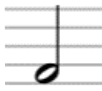

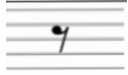

Musical rests function like punctuation in language, such as commas and periods, by creating intentional pauses that shape musical ideas. These pauses help define phrasing, highlight contrasts, and give listeners time to process what they hear. Without rest, music would feel continuous and directionless, lacking structural clarity, expressive depth, and dynamic movement.

Note Symbol	Note Name	Rest Symbol	Rest name	Duration (Beats)
	Whole note		Whole rest	4
	Half note		Half rest	2
	Quarter note		Quarter rest	1
	Eighth note		Eighth rest	$\frac{1}{2}$
	Sixteenth note		Sixteenth rest	$\frac{1}{4}$

APPLICATION ACTIVITY 1.4

1. Why is silence important in music, and what do we call the symbol that shows silence?
2. What is a musical rest, and what should performers do when they see it?
3. Name three musical rests and mention how many beats they last.
4. Complete the following table using a suitable element:

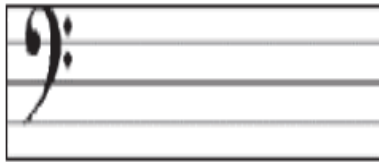

Name	Note	Rest	Value
Half			
Quarter			1 beat
Eighth			

1.5. The Treble, Bass, and Grand staves

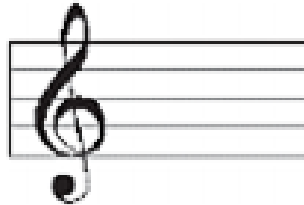

Learning activity 1.5

1.

2.

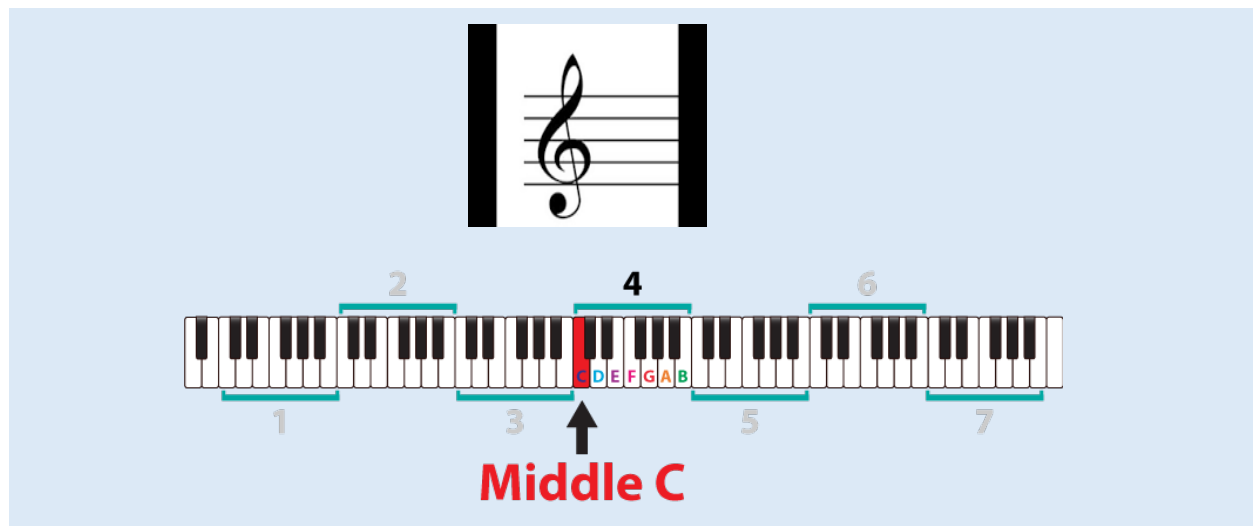

3.

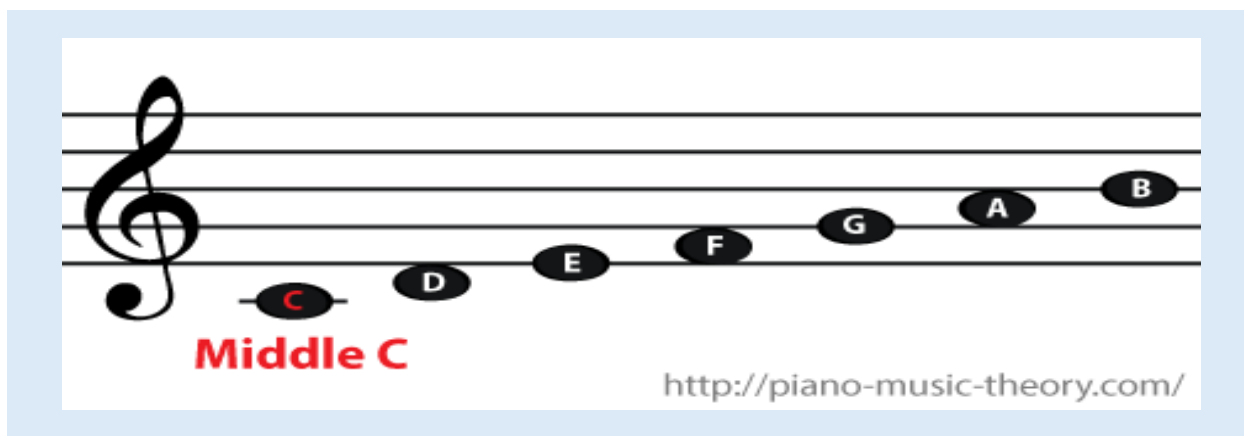

1.5.1 The Treble staff

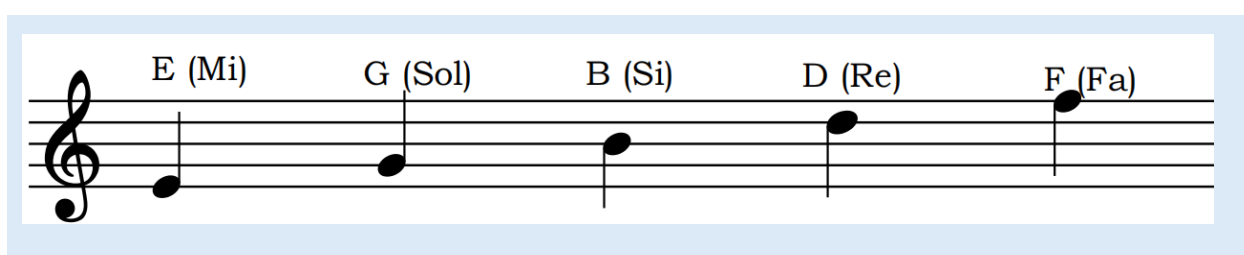

Just as a lock is the point that gives meaning to a key, the staff is the element that gives meaning to musical symbols. A key only becomes important when it enters the lock and opens it; in the same way, notes only make musical sense when they are correctly placed within the staff and organized by the rules of notation.

The treble staff includes a treble clef, which functions like a lock placed on the second line. Because this clef is also known as the G clef, it establishes the second line of the treble staff as a reference point, identifying it as the pitch G (Sol), from which all other pitches are determined, especially the high-pitched notes.

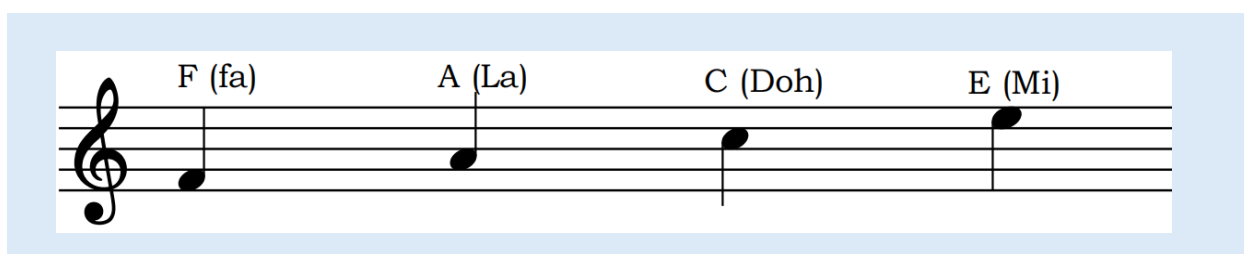

On the treble staff, the names of notes on the lines are Mi(E), Sol(G), Si(B), Re(D), and Fa (F): Every Good Boy Does Fine.

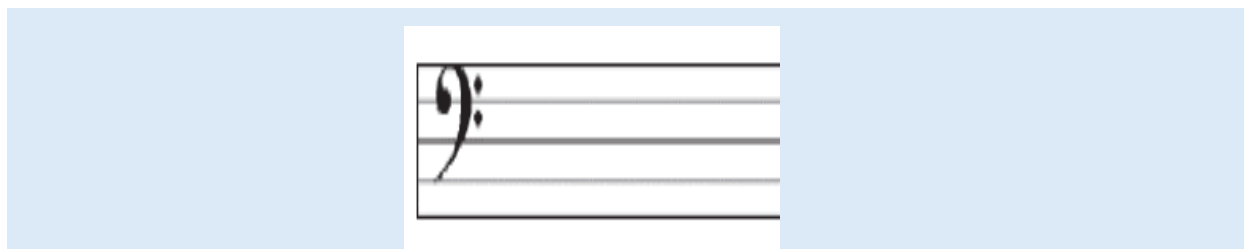

The names of notes in the spaces of the treble staff are Fa (F), La (A), Do(C) and Mi (E): FACE

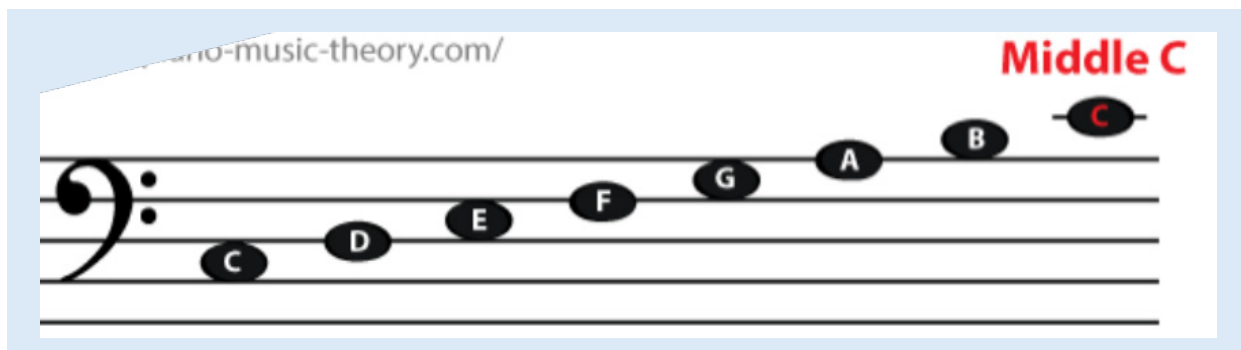

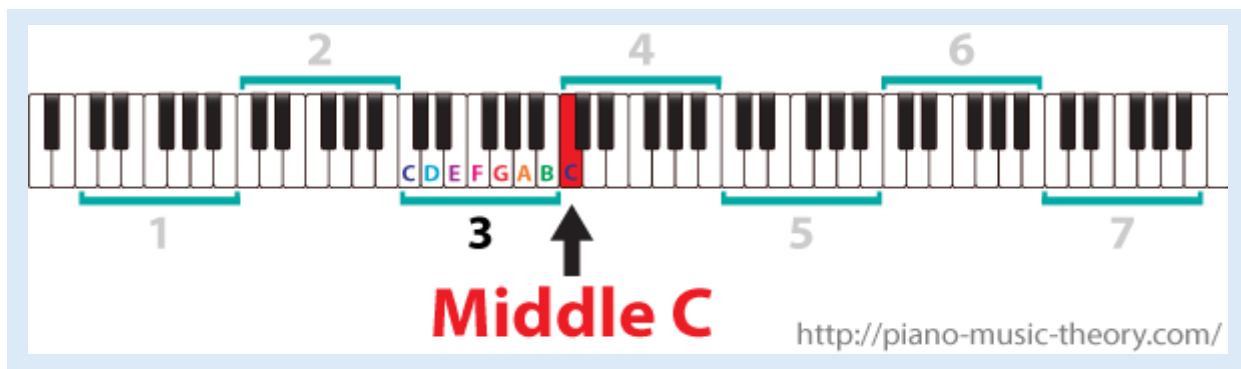

1.5.2. The Bass staff (low sounds)

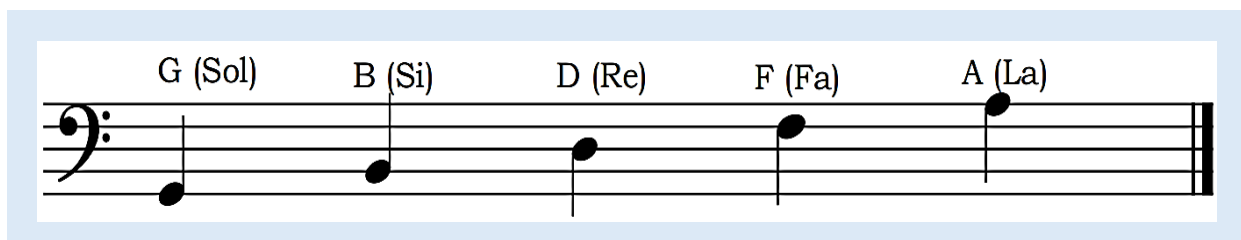

The Bass Clef (also known as the F-Clef) is the essential musical sign used for reading low-pitched sounds. It defines the Bass Staff, which is used to read and write notes in the lower musical range (low pitches).

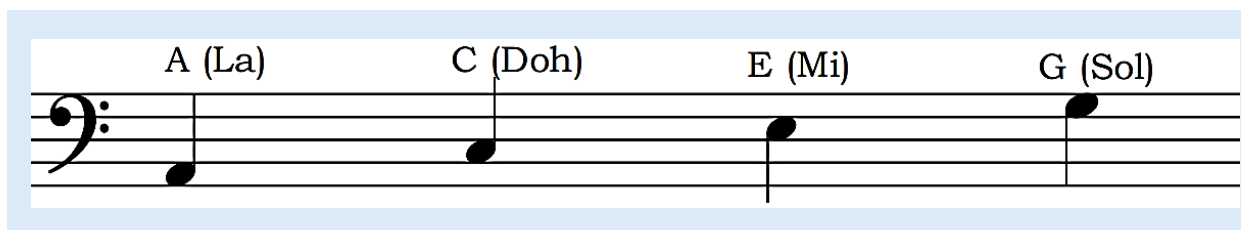

The two dots on the clef surround the fourth line from the bottom, making that line the note F. This F is the pivot used to name all the other notes on the staff. It serves as a central reference point, particularly for low-range instruments and voices, such as the cello, bass guitar, tuba, and the left hand of the piano.

The names of notes on the lines of the bass staff are **G-B-D-F-A** ("Good Boys Deserve Fruit Always")

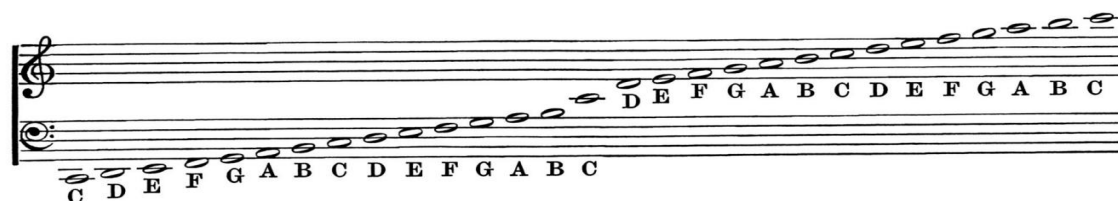

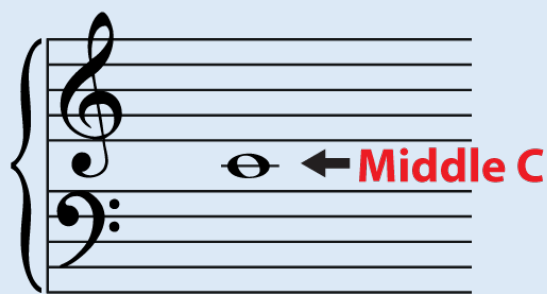

The names of notes in the spaces of the bass staff are **A-C-E-G** ("All Cows Eat Grass")

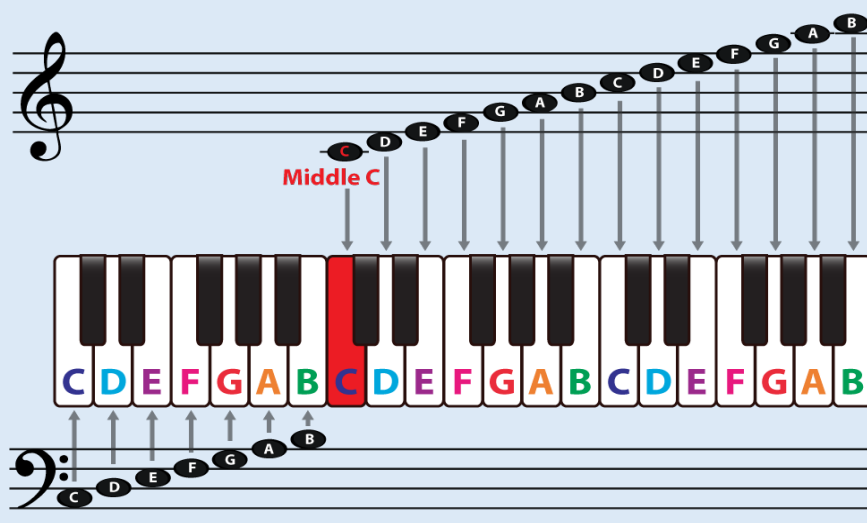

1.5.3. The Grand staff (low sounds)

The Grand Staff is the complete system used to write music that covers the full range of musical sounds, from very high to very low. The Grand Staff combines the treble and bass staves to cover a wide range of pitches. It is used for instruments like the piano and organ, with the two staves joined by a brace and connected at Middle C, which serves as the central reference point.

The grand staff is related to the piano keyboard, with middle C serving as the point of connection between the two staves.

APPLICATION ACTIVITY 1.5

1. What is the note considered as the bridge between the treble and bass staves?
2. Considering the grand staff, which staff is below, and which one is above and why?
3. Place the note flashcards (C to C) like steps in a staircase or on the floor in a row.
4. In pairs, students match solfa syllables with the correct letter notes (e.g., Do = C, Re = D).

END OF UNIT ASSESSMENT

PART A: KNOWLEDGE AND UNDERSTANDING

1. Define the musical staff.
2. What is the Grand Staff?
3. How many lines and spaces are found on a musical staff?
4. Why do we use ledger lines in music notation?
5. State one place where a note can be written using a ledger line.
6. Name two types of clefs.
7. Which clef is most used for singing and why?
8. Write the seven musical notes using letter names.
9. Match the following solfa names with their correct letter names:

Solfa	Letter
Do	
Re	
Mi	
Fa	

10. Name the following notes and write their values in beats:

Note Name	Value (beats)
Semibreve	
Minim	
Crotchet	
Quaver	
Semiquaver	

PART B: SKILLS

1. State two differences between a crotchet and a quaver.
2. How many quavers make one whole note?
3. How many semiquavers make one beat?
4. Why are rests important in music?
5. Which clef defines the treble staff, and which line does it circle?
6. Which clef defines the bass staff, and which line does it mark?
7. Which note is considered the bridge between the treble and bass staves?
8. In the grand staff, which staff is written above, and which one is below? Give a reason.
9. Why is accuracy important when writing musical notes?
10. Draw a treble clef in a staff and put the notes of C scale ascending.
11. Draw a bass clef and indicate the position of C note.

PART C: ATTITUDES AND VALUES

1. What new musical skill did you learn in this unit?
2. How can working in pairs or groups help you learn music better?
3. A grand staff is a combination of treble and bass staves so as they produce harmonic and p

UNIT DEVELOPMENT: 2

UNIT 2

TIME SIGNATURES

Key unit competence:

By the end of the unit, the students will be able to perform musical notes according to their pitches and rhythms.

Domain expected learning outcomes

Knowledge

- Define key musical terms related to time signatures: beat, bar/measure, bar line, and time signature.
- Identify and explain the meaning of simple time signatures $\frac{2}{4}$, $\frac{3}{4}$ and $\frac{4}{4}$
- State how many beats are found in each simple time signature and which note value receives one beat.
- Recognize simple time signatures in written musical excerpts and songs.

Skills

- Count and clap steady beats correctly in $\frac{2}{4}$, $\frac{3}{4}$ and $\frac{4}{4}$ time signatures.
- Group beats into bars/measures according to the correct time signature.
- Read and perform rhythmic patterns written in simple time signatures accurately.
- Sing simple songs written in $\frac{2}{4}$, $\frac{3}{4}$ and $\frac{4}{4}$ while maintaining correct beat and tempo.
- Demonstrate coordination between counting, clapping, and performing simple rhythms.

Attitudes and Values

- Show interest and enjoyment in musical rhythm activities and songs.
- Demonstrate confidence and collaboration when performing rhythms and singing with classmates.
- Show discipline, focus, and responsibility when practicing beat counting and rhythmic exercises.
- Value accuracy and creativity in musical performance.
- Appreciate music as a tool for cultural expression and teamwork.

1. Introduction

Music is guided by rhythm, which is organized into regular groups called measures (or bars). These measures are separated by bar lines, and the time signature tells us how many beats are in each measure.

In this unit, you will learn how to read and write musical notes correctly using different time signatures, and you will practice these skills using sol-fa notation.

Introductory activity 2

One afternoon, Cyuzuzo and Giramata were practicing with their school choir. Cyuzuzo played the piano, Giramata played the drum, and the choristers sang. Amina tapped the beat: **tap – tap – tap – tap**, and everyone followed easily. When Giramata stepped outside, Urujeni took the drum and played a different pattern: **tap-tap – tap, tap-tap-tap – tap**. Suddenly, the whole choir became confused and clapped off-beat.

The choir maestro stopped the practice and asked Urujeni, "Why was your beat harder to follow than Giramata's? What made the rhythm feel different? Is there a special rule in music that helps us organize beats?"

2.1. Concepts of time signature

Learning activity 1.4

During a music lesson, the teacher asked a student to tap his pencil on the desk: **tap, tap — pause — tap, tap**. When the student finished, the teacher smiled and said, "You are keeping a steady beat!"

Learning activity 2.1

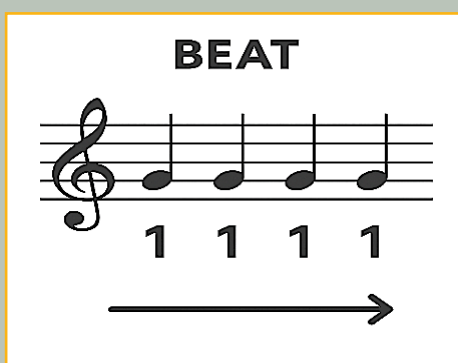

Then the teacher drew lines to separate the groups of taps and explained, "These groups are called bars, and the lines between them are bar lines." A student looked confused and asked: "Why do we group beats like this in music? What do these bars and lines really show us?"

1. What is the steady pulse the student tapped?
2. What are the groups of taps called?
3. What are the lines that separate the groups called?
4. Why do we group beats into bars?

2.1.1. Beat

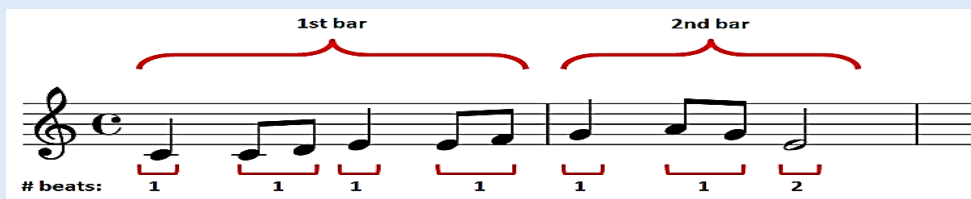

A beat is the steady; regular pulse you feel in music.

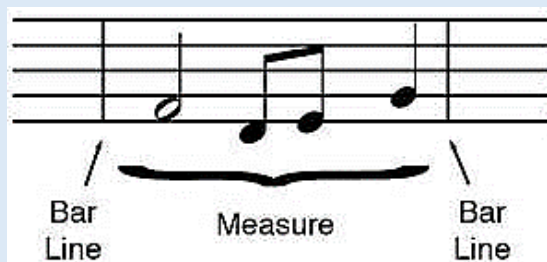

It's like the heartbeat of a song. It keeps going at a constant pace, even if the music changes. You can clap, tap your foot, or nod your head to the beat.

Example: a whole note has 4 beats

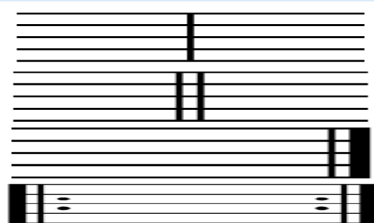

2.1.2. Bar or measure

A bar or measure is a group of beats, separated by vertical lines called bar lines. Measures help organize the music and make it easier to read.

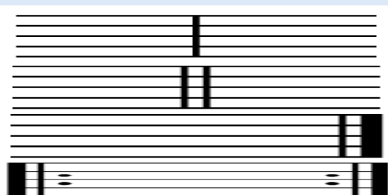

Barline

A barline is a vertical line that separates music into measures. There are single and final (end) barline. The single barline has one vertical line while the final barline has two vertical lines.

2.1.3. Time signature

A time signature is a symbol in music that tells us how the beats are organized in each measure (or bar) of a song. It looks like a fraction, such as $\frac{2}{4}$, $\frac{3}{4}$ and $\frac{4}{4}$. Those time signatures are written at the beginning of a piece of music, right after the clef.

Why these fraction?

Time signatures look like fractions, but they are not real fractions in mathematics.

They are written this way because each number has a different job and writing them one above the other makes it easy to read.

- The top number tells you *how many beats* are in each measure (bar), while the bottom number tells you *which note value* gets one beat.

For example:

Take $\frac{4}{4}$ as an example:

4 ← Top number: How many beats are in each measure

4 ← Bottom number: Which note gets one beat (4 = quarter note)

- Top number (4): There are 4 beats in each measure.
- Bottom number (4): The quarter note gets 1 beat.

So, in $\frac{4}{4}$ time signature, each measure has 4 beats, and each beat is quarter note.

Another example: $\frac{3}{4}$

3 ← Top number: 3 beats per measure

4 ← Bottom number: Eighth note gets 1 beat

Each measure has 3 beats, and each beat is an eighth note.

$\frac{3}{4}$ means: 2 beats per bar and a quarter note gets one beat

$\frac{3}{4}$ means: 3 beats per bar and a quarter note gets one beat

Briefly, Time signatures look like fractions so that musicians can easily read how many beats are in a bar and which note gets one beat. It helps musicians stay in rhythm, read music more easily, and play together in time.

APPLICATION ACTIVITY 2.1

1. What is a beat?
2. How does a bar differ from the beat?
3. What is the purpose of bar lines?
4. What do the numerals of a time signature tell the performer?

2.2. The $\frac{2}{4}$ Time Signature

Learning activity 2.2

Observe the following melody and tell the number of beats that are in each bar:

2.2.1. What is $\frac{2}{4}$ time signature?

The $\frac{2}{4}$ time signature is a type of time signature which has 2 beats in each bar and each beat is equal to a quarter note.

2.2.3. Counting the beats in $\frac{2}{4}$ time signature

When counting the beats in $\frac{2}{4}$ time signature, the quarter note gets one beat, this means that two fill the measure, the half note is equal to two beats and can fill the measure while an eighth note is considered as a half beat which means that to fill the measure, they must be four.

2.2.4. Practice in $\frac{2}{4}$ time signature

2.2.5. Songs with $\frac{2}{4}$ time signature

1. Rwanda rwatubyaye

Rwa nda nzi za Rwa nda rwa tu bya ye tu za ku ri ri mba

i gi he cyo se, tu za ku vu gi bi gwi a ho tu ri ho se,

tu za kwa ma ma za mu ma ha nga yo se tu za gu ha ra ni ra

Rwand'u ra bi kwi ye. Tu za gu ha ra ni ra Rwand'u ra bi kwi ye.

2.2.6. Happy birthday

Happy Birth day, happy Birth day, happy Birth day to you!

1. We are here for you, on this spe cial day, sen ding
2. May your love can come true, with the wish may your
3. Let the can dies shine, a wish so true, we are

love heart chee and stay ring joy bright, loud in with e joy just very and for way! fun! you!

Happy Birth day, happy Birth day, happy Birth day to you!

1. We are here love for you, on this spe cial sing day, sen ding
2. May your love can come dies true, shine, with the wish so true, may your
3. Let the can dies shine, a wish so true, we are

love heart chee and stay ring joy bright, loud in with e joy just very and for way! fun! you!

Happy Birth day, happy Birth day, happy Birth day to you!

1. We are here love for you, on this spe cial sing day, sen ding
2. May your love can come dies true, shine, with the wish so true, may your
3. Let the can dies shine, a wish so true, we are

love heart chee and stay ring joy bright, loud in with e joy just very and for way! fun! you!

APPLICATION ACTIVITY 2.2

- How many beats are there in a bar of $\frac{2}{4}$ time signature?
- Read the following melodies respecting $\frac{2}{4}$ time signature.

- Fill in missing notes to complete the given time signature.

2.3. The $\frac{3}{4}$ Time Signature

Learning activity 2.3

Observe the following melody and tell the number of beats that are in each bar:

2.3.1. What is $\frac{3}{4}$ time signature?

The $\frac{3}{4}$ time signature is a type of time signature which has 3 beats in each bar with the quarter note receiving one beat.

2.3.2. Counting the beats in $\frac{3}{4}$ time signature

When counting the beats, the quarter note gets one beat, this means that three fill the measure, the half note is equal to two beats and they need to have a quarter note or a dot (the dot is equal to the half of the value of a note that possess it) to fill the measure while an eighth note is considered as a half beat which means that to fill the measure they must be six.

2.3.3. Practice in $\frac{3}{4}$ time signature

2.3.4. A song with $\frac{3}{4}$ time signature

APPLICATION ACTIVITY 2.3

1. How many beats are there in a bar of $\frac{3}{4}$ time signature?
2. Read the following melodies respecting $\frac{3}{4}$ time signature

3. Fill in missing notes to complete the given time signature

4.

The $\frac{4}{4}$ Time Signature

Learning activity 2.3

Observe the following melody and tell the number of beats that are in each bar:

4.1.1. What is $\frac{4}{4}$ time signature?

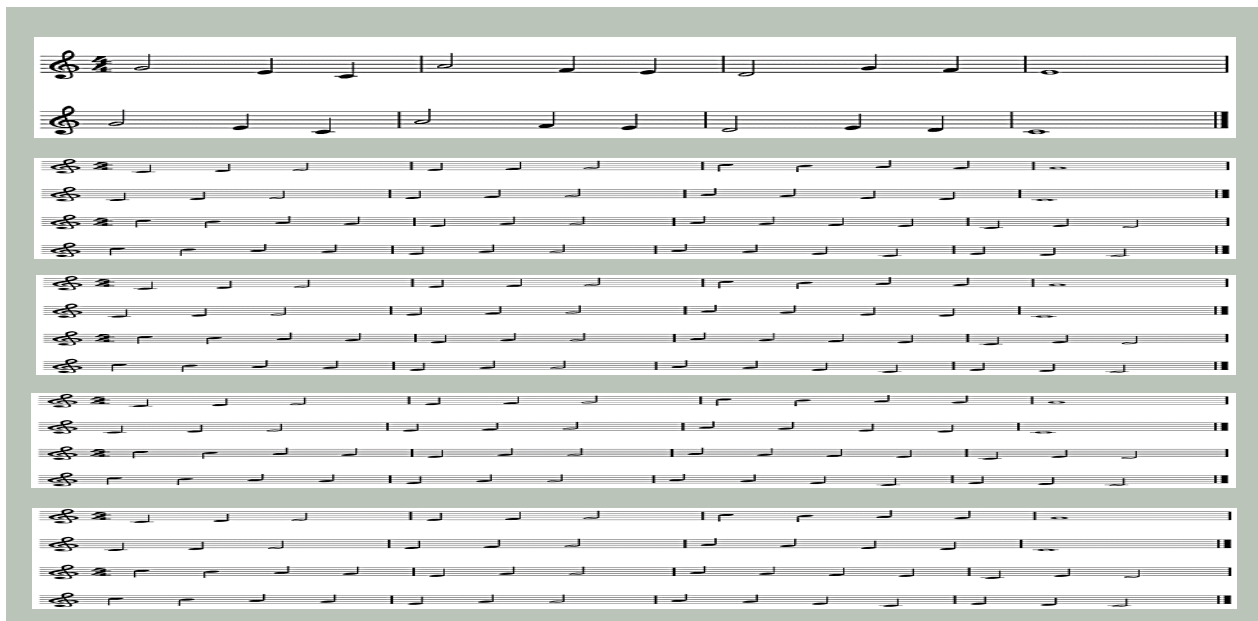

The $\frac{4}{4}$ time signature is a type of time signature which has 4 beats in each bar with the quarter note receiving one beat.

2.4.2. Counting the beats in $\frac{4}{4}$ time signature

When counting the beats, the quarter note gets one beat, this means that four fill the measure, the half note is equal to two beats and 2 of it fill the measure while an eighth note is considered as a half beat which means that to fill the measure, they must be eight.

2.4.3. Practice in $\frac{4}{4}$ time signature

2.4.4. Songs with $\frac{4}{4}$ time signature

Shabuka!

1. Tu	ra	te	Rwa	nda	ya	c'i	ta	ts'i	ne	ma
2. U	fi	t'i	bi	ru	nga	nka	Mu	ha	bu	ra
3. Twa	vu	g'i	ki	se	ku	ma	zi	ma	ga	ri
4. Ha	ru	bwo	se	mwa	ge	ze	mu	mu	ke	nke

Rwa	nda	ya	cu	nzi	za	ga	ho	ra	n'i	shya
ni	cyo	gi	ku	ru	mu	bi	ru	nga	by'i	no
nka	Ki	vu	na	Mu	ha	zi	ya	Bu	ga	nza
ngo	mu	ro	r'I	mpa	la	n'I	mpa	ra	ge	se

Gi te go cya ta tsw'u bwi za na Ru re ma

a h'u ri ho s'u b'u cyi te ge ye
Cyo ho h'i ne te sha Bu ge se ra
ngo mu ro r'I ngwe n'U ru sa ma gwe

Rwa nda nzi za ntu te ze ku za hi nyu ka mu ma ha nga

Rwa nda nzi za a ba we ba gu ha y'i mpu ndu

APPLICATION ACTIVITY 2.3

1. How many beats are there in a bar of $\frac{4}{4}$ time signature?
2. Read the following melodies respecting $\frac{4}{4}$ time signature.

3. Fill in missing notes to complete the given time signature

END OF UNIT ASSESSMENT

PART A: KNOWLEDGE AND UNDERSTANDING

1. Define the following musical terms:

- a) Beat
- b) Bar/Measure
- c) Barline
- d) Time signature

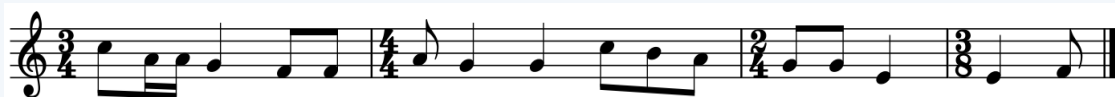

2. Complete the table below:

Time Signature	Beats per bar	Note value that gets one beat
$\frac{2}{4}$		
$\frac{3}{4}$		
$\frac{4}{4}$		

3. Study the musical excerpts written on the staff below and write the correct time signature for each excerpt. Then, state how many beats are found in one bar of each excerpt:

4. Look at the measures written on the staff below.

5. The following rhythm is written without bar lines:

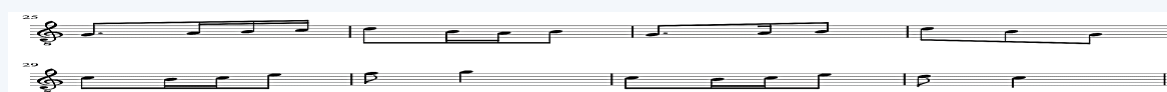

-

-

1. Clap and count aloud a steady beat in:

- c) $\frac{4}{4}$

-
- The first staff of music is written on a treble clef staff. It contains a sequence of eighth notes: G4, A4, B4, C5, D5, E5, F5, G5, A5, B5, C6, D6, E6, F6, G6, A6, B6, C7, D7, E7, F7, G7, A7, B7, C8, D8, E8, F8, G8, A8, B8, C9, D9, E9, F9, G9, A9, B9, C10, D10, E10, F11, G11, A11, B11, C12, D12, E12, F13, G13, A13, B13, C14, D14, E14, F15, G15, A15, B15, C16, D16, E16, F17, G17, A17, B17, C18, D18, E18, F19, G19, A19, B19, C20, D20, E20, F21, G21, A21, B21, C22, D22, E22, F23, G23, A23, B23, C24, D24, E24, F25, G25, A25, B25, C26, D26, E26, F27, G27, A27, B27, C28, D28, E28, F29, G29, A29, B29, C30, D30, E30, F31, G31, A31, B31, C32, D32, E32, F33, G33, A33, B33, C34, D34, E34, F35, G35, A35, B35, C36, D36, E36, F37, G37, A37, B37, C38, D38, E38, F39, G39, A39, B39, C40, D40, E40, F41, G41, A41, B41, C42, D42, E42, F43, G43, A43, B43, C44, D44, E44, F45, G45, A45, B45, C46, D46, E46, F47, G47, A47, B47, C48, D48, E48, F49, G49, A49, B49, C50, D50, E50, F51, G51, A51, B51, C52, D52, E52, F53, G53, A53, B53, C54, D54, E54, F55, G55, A55, B55, C56, D56, E56, F57, G57, A57, B57, C58, D58, E58, F59, G59, A59, B59, C60, D60, E60, F61, G61, A61, B61, C62, D62, E62, F63, G63, A63, B63, C64, D64, E64, F65, G65, A65, B65, C66, D66, E66, F67, G67, A67, B67, C68, D68, E68, F69, G69, A69, B69, C70, D70, E70, F71, G71, A71, B71, C72, D72, E72, F73, G73, A73, B73, C74, D74, E74, F75, G75, A75, B75, C76, D76, E76, F77, G77, A77, B77, C78, D78, E78, F79, G79, A79, B79, C80, D80, E80, F81, G81, A81, B81, C82, D82, E82, F83, G83, A83, B83, C84, D84, E84, F85, G85, A85, B85, C86, D86, E86, F87, G87, A87, B87, C88, D88, E88, F89, G89, A89, B89, C90, D90, E90, F91, G91, A91, B91, C92, D92, E92, F93, G93, A93, B93, C94, D94, E94, F95, G95, A95, B95, C96, D96, E96, F97, G97, A97, B97, C98, D98, E98, F99, G99, A99, B99, C100, D100, E100, F101, G101, A101, B101, C102, D102, E102, F103, G103, A103, B103, C104, D104, E104, F105, G105, A105, B105, C106, D106, E106, F107, G107, A107, B107, C108, D108, E108, F109, G109, A109, B109, C110, D110, E110, F111, G111, A111, B111, C112, D112, E112, F113, G113, A113, B113, C114, D114, E114, F115, G115, A115, B115, C116, D116, E116, F117, G117, A117, B117, C118, D118, E118, F119, G119, A119, B119, C120, D120, E120, F121, G121, A121, B121, C122, D122, E122, F123, G123, A123, B123, C124, D124, E124, F125, G125, A125, B125, C126, D126, E126, F127, G127, A127, B127, C128, D128, E128, F129, G129, A129, B129, C130, D130, E130, F131, G131, A131, B131, C132, D132, E132, F133, G133, A133, B133, C134, D134, E134, F135, G135, A135, B135, C136, D136, E136, F137, G137, A137, B137, C138, D138, E138, F139, G139, A139, B139, C140, D140, E140, F141, G141, A141, B141, C142, D142, E142, F143, G143, A143, B143, C144, D144, E144, F145, G145, A145, B145, C146, D146, E146, F147, G147, A147, B147, C148, D148, E148, F149, G149, A149, B149, C150, D150, E150, F151, G151, A151, B151, C152, D152, E152, F153, G153, A153, B153, C154, D154, E154, F155, G155, A155, B155, C156, D156, E156, F157, G157, A157, B157, C158, D158, E158, F159, G159, A159, B159, C160, D160, E160, F161, G161, A161, B161, C162, D162, E162, F163, G163, A163, B163, C164, D164, E164, F165, G165, A165, B165, C166, D166, E166, F167, G167, A167, B167, C168, D168, E168, F169, G169, A169, B169, C170, D170, E170, F171, G171, A171, B171, C172, D172, E172, F173, G173, A173, B173, C174, D174, E174, F175, G175, A175, B175, C176, D176, E176, F177, G177, A177, B177, C178, D178, E178, F179, G179, A179, B179, C180, D180, E180, F181, G181, A181, B181, C182, D182, E182, F183, G183, A183, B183, C184, D184, E184, F185, G185, A185, B185, C186, D186, E186, F187, G187, A187, B187, C188, D188, E188, F189, G189, A189, B189, C190, D190, E190, F191, G191, A191, B191, C192, D192, E192, F193, G193, A193, B193, C194, D194, E194, F195, G195, A195, B195, C196, D196, E196, F197, G197, A197, B197, C198, D198, E198, F199, G199, A199, B199, C200, D200, E200, F201, G201, A201, B201, C202, D202, E202, F203, G203, A203, B203, C204, D204, E204, F205, G205, A205, B205, C206, D206, E206, F207, G207, A207, B207, C208, D208, E208, F209, G209, A209, B209, C210, D210, E210, F211, G211, A211, B211, C212, D212, E212, F213, G213, A213, B213, C214, D214, E214, F215, G215, A215, B215, C216, D216, E216, F217, G217, A217, B217, C218, D218, E218, F219, G219, A219, B219, C220, D220, E220, F221, G221, A221, B221, C222, D222, E222, F223, G223, A223, B223, C224, D224, E224, F225, G225, A225, B225, C226, D226, E226, F227, G227, A227, B227, C228, D228, E228, F229, G229, A229, B229, C230, D230, E230, F231, G231, A231, B231, C232, D232, E232, F233, G233, A233, B233, C234, D234, E234, F235, G235, A235, B235, C236, D236, E236, F237, G237, A237, B237, C238, D238, E238, F239, G239, A239, B239, C240, D240, E240, F241, G241, A241, B241, C242, D242, E242, F243, G243, A243, B243, C244, D244, E244, F245, G245, A245, B245, C246, D246, E246, F247, G247, A247, B247, C248, D248, E248, F249, G249, A249, B249, C250, D250, E250, F251, G251, A251, B251, C252, D25

 with the dawn of re dee ming grace, Je sus Lord at Thy

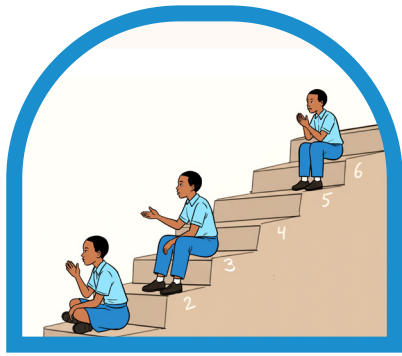

peace born birth Sleep in Hea p ly peace.
 Christ the Sa vior is born.
 Je sus Lord at Thy birth.

PART C: ATTITUDES AND VALUES

1. Why is keeping a steady beat important when singing or clapping?
2. How does working with classmates help you perform rhythms better?
3. Mention two ways discipline and focus help in rhythm practice.
4. Explain how music helps promote teamwork and cultural expression.

UNIT DEVELOPMENT: 3

UNIT 3: PITCH RELATIONSHIPS

Key unit competence:

By the end of the unit, the students will be able to demonstrate mastery of tones, semitones, and intervals in music notation and performance.

Domain expected learning outcomes

Knowledge

- Define tone, semitone, and interval.
- Identify tones and semitones on a musical scale or keyboard.
- Name common intervals (e.g., unison, 2nd, 3rd, 4th, 5th).
- Explain how intervals are formed between two notes.

Skills

- Distinguish tones and semitones when listening or reading written music.
- Sing simple intervals accurately (e.g., do-re, do-mi).
- Apply tones and semitones to build simple scales (e.g., major scale pattern).
- Identify and perform basic intervals in short melodic exercises.

Attitudes and Values

- Show interest and curiosity when exploring pitch relationships.
- Demonstrate confidence when singing intervals and practicing exercises.
- Work cooperatively with peers during listening and singing activities.
- Appreciate accuracy, patience, and discipline when learning musical pitch.
- Value music as a form of expression and a tool for developing listening skills.

Introduction

This unit introduces how musical notes move through tones, semitones, and intervals. It explains the difference between large steps (tones) and small steps (semitones) and how these form intervals. Understanding these relationships helps you read melodies, sing accurately, recognize patterns, and compose music effectively.

Introductory activity 3

Question 1: Why do these notes feel different?

Listen carefully and sing this note after me.

- Teacher sings Do
- Students sing Do
- Teacher sings Re
- Students sing Re

Question 2: How does Re sound compared to Do? Close or far?

- Now listen to this one.
- Teacher sings Sol
- Students sing Sol

Question 3: Does Sol feel closer to Do or farther?

- Let's see these sounds on the piano.
- Teacher plays Do.
- A student plays Re (nearest white key).

Question 4: How many keys are between Do and Re?

Teacher plays Do, then Sol.

Question 5: How many keys are between Do and Sol?

Answer the following questions:

- Why do Do and Re sound close?
- Why does Do to Sol sound farther?
- What do you notice when you see the keys and hear the sound?

In music, the distance between two notes can be very small or larger. Musicians have special names for these small and large distances. In this unit, we will learn how to identify and use them.

3.1. Key concepts in intervals

Learning activity 3.1

1. Look at or draw a piano keyboard
 - Focus only on the white keys.
 - Notice that some white keys are right next to each other (like E–F and B–C), while others have a black key between them.
2. Understand the distance
 - The distance between two nearest keys (white or black) is called a semitone.
 - When two white keys have no black key between them, they are 1 semitone apart.
 - When there is a black key between two white keys, they are 2 semitones (a tone) apart.
3. Using the keyboard, count the semitones between:
 - Do → Re
 - Do → Mi
 - Do → Fa
 - Do → Sol
 (Count every step, including black keys, even if you don't name them.)
4. After counting the semitones, say whether each distance is a:

2nd, 3rd, 4th, or 5th

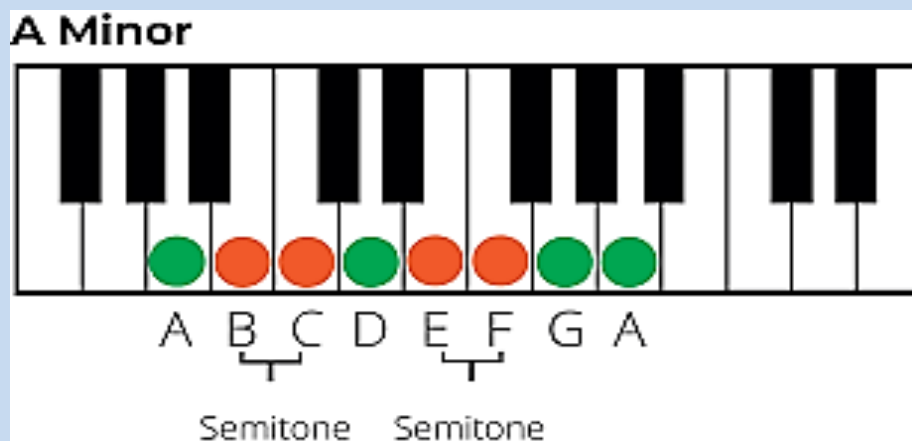

For example: Do → Re is a **2nd**.
5. Which of these intervals sounds the smallest, and which sounds the largest? Why do you think that is?

Music is made of sounds that can be **high or low**. The distance between these sounds is what makes music interesting and meaningful. To understand this distance, we learn three important concepts: **semitone, tone, and interval**.

3.1.1. Semitone

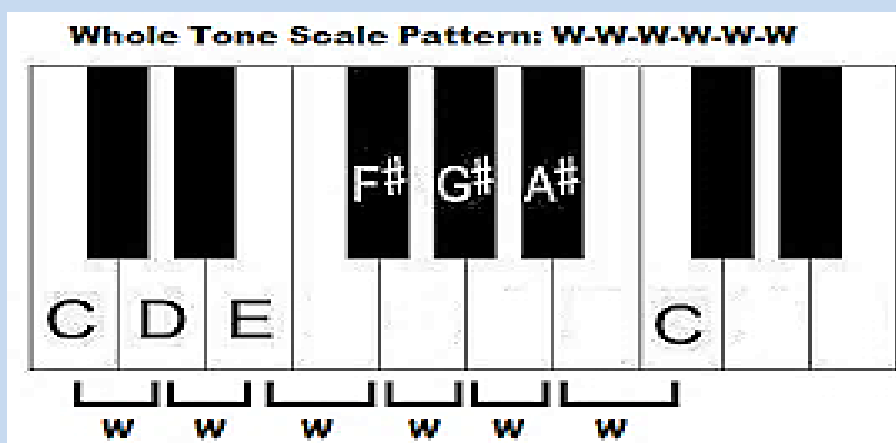

A **semitone** is the **smallest distance between two notes** in Western music. On a piano, a semitone is the distance from **one key to the very next key**, whether black or white.

The semi tones are on the following keyboard illustration, and they are found between E-F and B-C:

3.1.2. Tone

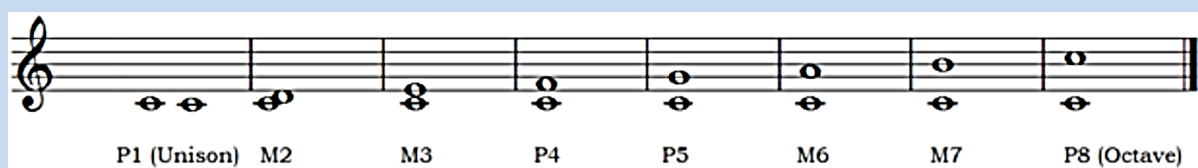

A **tone** is equal to **two semitones**. On a piano, a tone means **skipping one key** between

3.1.3. Interval

An **interval** is the **distance between two notes**, measured by counting the notes from the first to the last, **including both**.

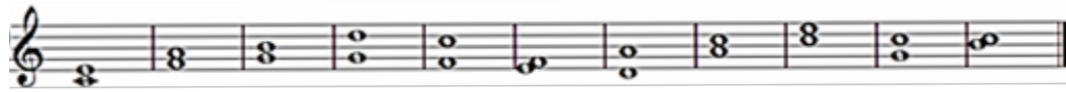

Intervals are described with numbers such as 2nd, 3rd etc. They are referred to by letter names that is A, B, C, D, E, F and G.

APPLICATION ACTIVITY 3.1

1. What is an interval?
2. Differentiate a tone from a semi tone
3. How are intervals described?
4. Describe the intervals on the following staff:

3.2. Accidentals and their effect on pitch

Learning activity 3.2

In music, there are changes that happen on notes when they are raised or lowered.

1. What symbols are used?
2. What happen if a musician wants to stop those changes?

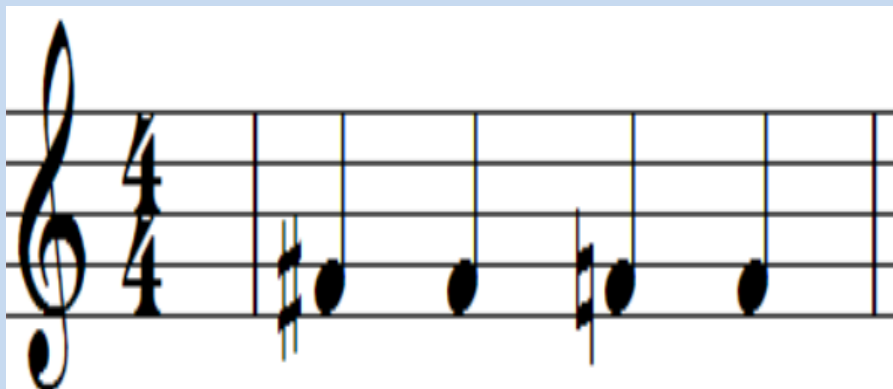

In music, notes can be **raised or lowered** to change their pitch slightly. These changes are shown using special symbols called accidentals. In this lesson, we will learn about **sharps (#), flats (b), and naturals (♮)**, and how they affect notes."

Accidentals are signs or symbols placed to the left side of a note to indicate that the pitch is to be altered. Those are:

3.2.1. The sharp (#)

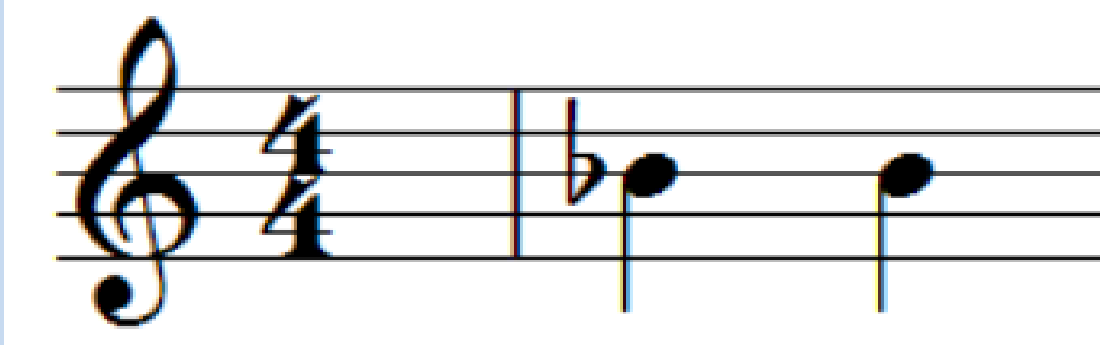

A sharp is a symbol that raises the pitch of the note by semitone.

If we place a sharp sign in front of an **F** note, the note then becomes **F sharp** and any other **F** that appears in the same bar is also **F#** (even if the repeated **F**s don't have sharp signs in front of them)

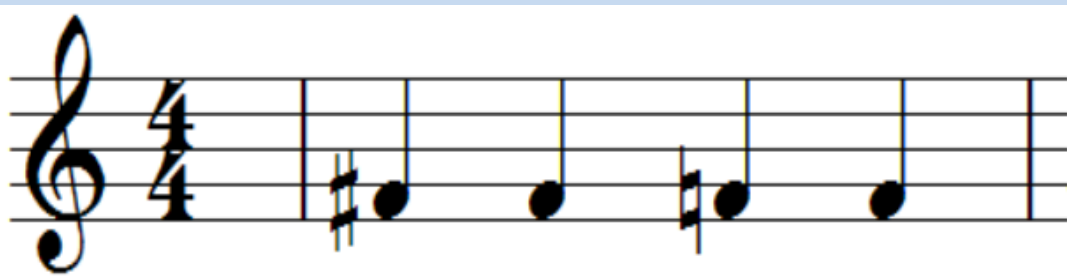

3.2.2. The flat (b)

A flat is a symbol that lowers the pitch of a note by a semitone. If we place a flat sign in front of a **B** note, the note then becomes **B $\flat$** and any other B that appears in the same bar is also **B $\flat$** (even if the repeated Bs don't have flat signs in front of them).

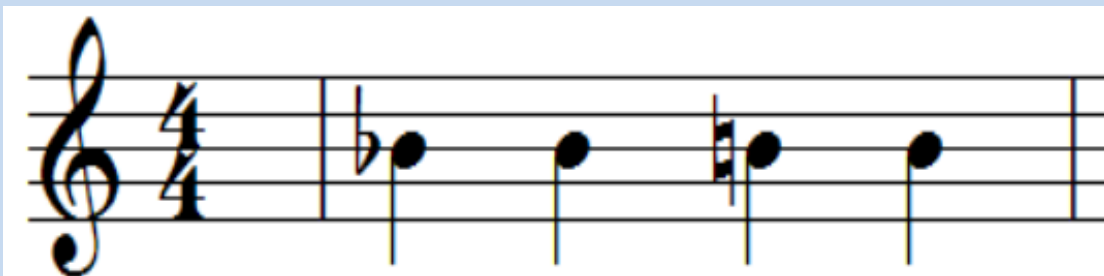

3.2.2. The natural (♮)

A Natural also known as Neutral is a symbol that cancels the effect of either the sharp or the flat.

In the staff above, the first note is F sharp (F#), and the second is also F sharp (F#) even though there is no sharp sign directly in front of it. The third note is F natural and so is the fourth.

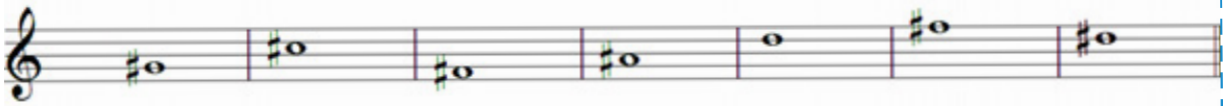

In the staff above, the first note is **B flat (B $\flat$)**, and so is the second, even though there is no sharp sign directly in front of it. The third note is B natural and so is the fourth.

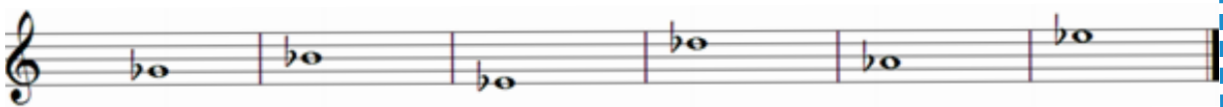

APPLICATION ACTIVITY 3.2

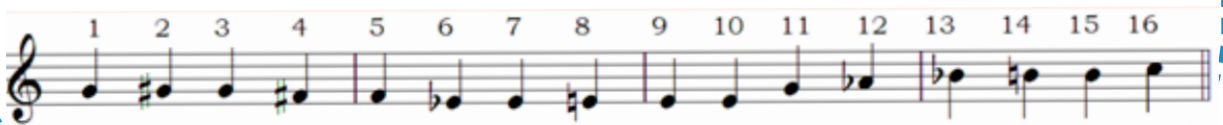

1. Write in the names of the sharpened notes and then indicate them (the notes) on the keyboard

2. Write in the names of the flattened notes and then indicate them (the notes) on the keyboard.

3. Name the numbered notes on the following staff:

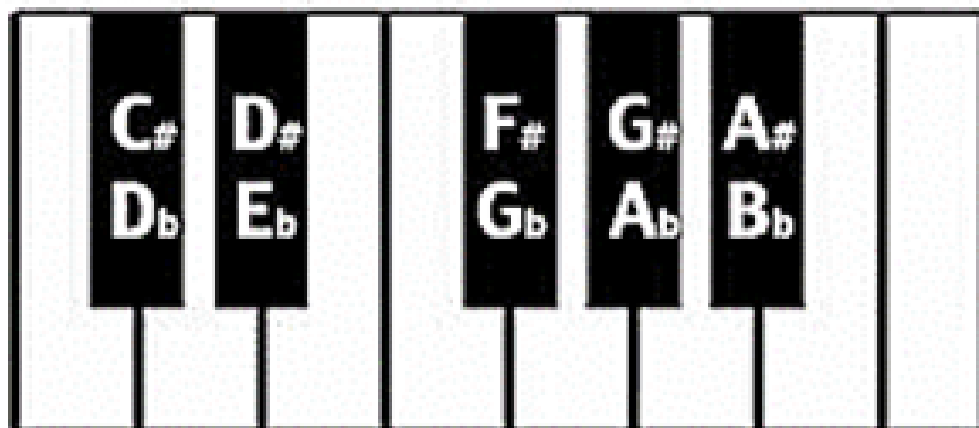

3.3. Enharmonic equivalents

Learning activity 3.3

Study the following illustration of the part of keyboard and name the black keys using 2 names:

In music, enharmonic equivalents are notes that produce the same pitch but are notated differently.

However, the white notes on the keyboard also have enharmonic equivalents as well. For example: E natural can also be written as F flat, F natural can be written as E sharp, B natural can be C flat and C can be B sharp.

C sharp = D flat

D sharp = E flat

F sharp = G flat

G sharp = A flat

A sharp = B flat

A musical staff in treble clef showing the sequence of notes from C sharp to B sharp. The notes are: C sharp (half note), D flat (half note), E (half note), F flat (half note), F sharp (half note), G flat (half note), G sharp (half note), A flat (half note), A sharp (half note), B flat (half note), B (half note), and B sharp (half note). Each note is accompanied by its name and any accidentals.

[illegible]

APPLICATION ACTIVITY 3.3

1. What is the meaning of enharmonic notes?
2. Write the enharmonic notes for the following notes and play them using a keyboard:

- | | |
|-------|--------------|
| a) D# | f) F $\flat$ |
| b) C# | g) C $\flat$ |
| c) G# | h) B |
| d) E | i) G $\flat$ |
| e) F | j) D# |

3.4. Simple intervals

Learning activity 3.4

Read the following scenario and answer the questions that follow it:

How high is the next note?

During a music lesson, the teacher asks the class to sing **Do**, then guides students to sing **Mi** and **Sol**. The class listens and notices that **Do–Mi** is a smaller distance than **Do–Sol**. By playing the notes on the keyboard, the teacher helps students hear that notes can be close or far apart in music.

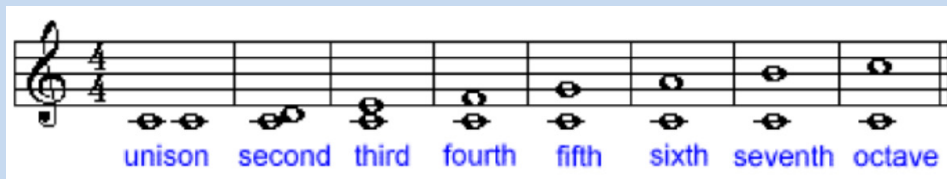

1. What do you notice about the distance between Do and Mi compared to **Do** and **Sol**?
2. Why does **Do–Sol** sound like a bigger jump than **Do–Mi**?
3. What name can we give to the distance between two notes?
4. How can knowing the distance between notes help us when singing or playing music?

An interval is the distance between two notes. Intervals are always counted from the lower note to the higher one, with the lower note being counted as one.

Simple intervals are not bigger than an octave. So, when they are bigger than an octave they are referred to as compound intervals.

An interval that is made of notes of the same pitch (for example same Cs) is called unison.

3.4.2. Simple intervals

Using the C Major Scale as example, we have the following list

Same pitch C (1) = **Unison**

From C to D (1, 2) = **Second - 2nd**

From C to E (1, 2, 3) = **Third - 3rd**

From C to F (1, 2, 3, 4) = **Fourth - 4th**

From C to G (1, 2, 3, 4, 5) = **Fifth - 5th**

From C to A (1, 2, 3, 4, 5, 6) = **Sixth - 6th**

From C to B (1, 2, 3, 4, 5, 6, 7) = **Seventh - 7th**

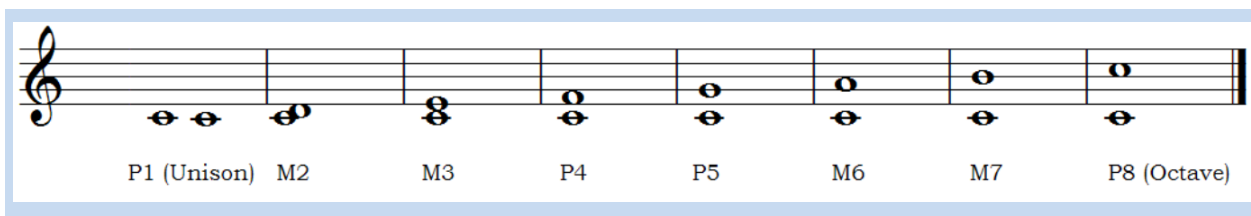

From C to C above (1, 2, 3, 4, 5, 6, 7, 8) = **Octave - 8ve**

3.4.3. Quality of intervals

Intervals are also known by their quality which are **Major (M)**, **Minor (m)**, **Perfect (P)**, **Augmented (Augm)**, **Diminished (dim)** or **(o)** and they differ basing on their difference in tones and semi tones:

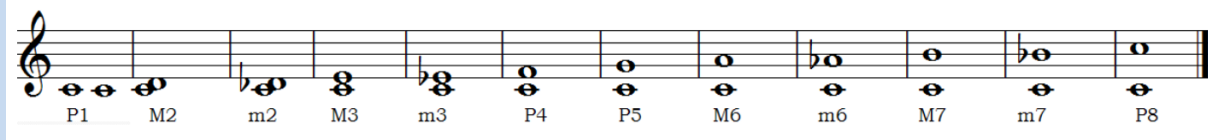

1. **Major** is one half-step larger than minor, and they can be **2nd, 3rd, 6th and 7th**.
2. **Minor** is one half-step smaller than Major, and they can be **2nd, 3rd, 6th and 7th**
3. **Perfect**: they can be Unison, 4th, 5th and Octave
4. **Augmented** is one half-step larger than perfect or Major
5. **Diminished** is one half-step smaller than Perfect or minor

a) Major (M) and Perfect (P) intervals on the musical staff

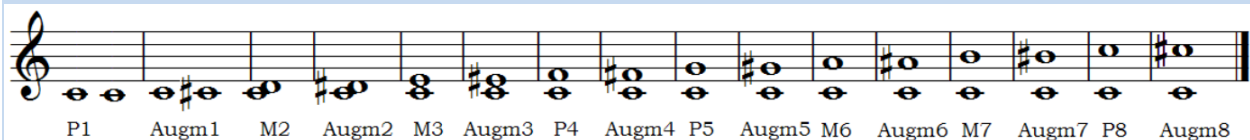

b) The difference between Major and minor intervals

The difference between **Major** and **minor** intervals is that of **size**; a minor interval is a half-step **smaller** than a major interval.

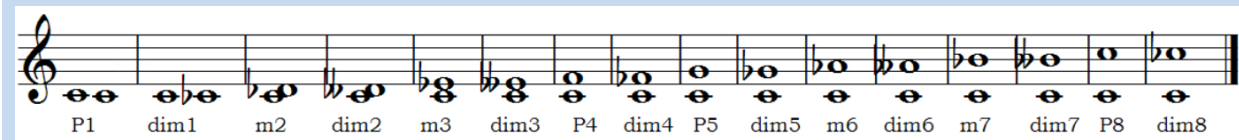

c) The Augmented intervals

When a size of **Major** or **Perfect** interval is **expanded** a half step, it becomes an Augmented interval.

d) The diminished intervals

When a size of **minor** or **Perfect** interval is **reduced** a half step, it becomes a diminished interval.

APPLICATION ACTIVITY 3.4

1. Identify the interval between the following pairs of notes and name them:

2. For each interval you identified above, state whether it is Major (M), Minor (m), Perfect (P), Augmented (Aug), or Diminished (dim).

3. Considering the interval from C to E.

a) If you lower E by a half-step, what type of interval does it become?

b) If you raise E by a half-step, what type of interval does it become?

3.5. Practical sol-fa and piano application

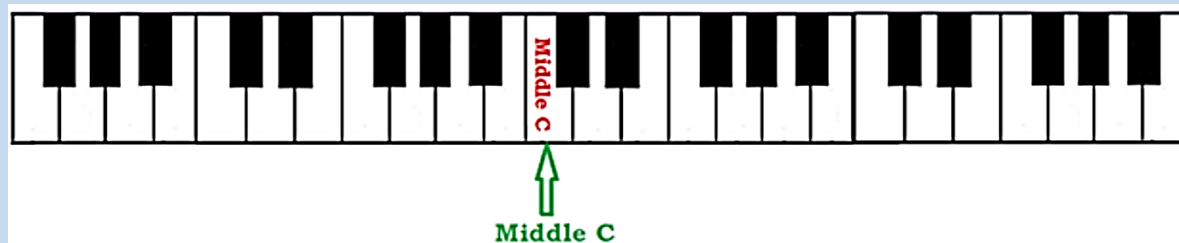

Learning activity 3.4

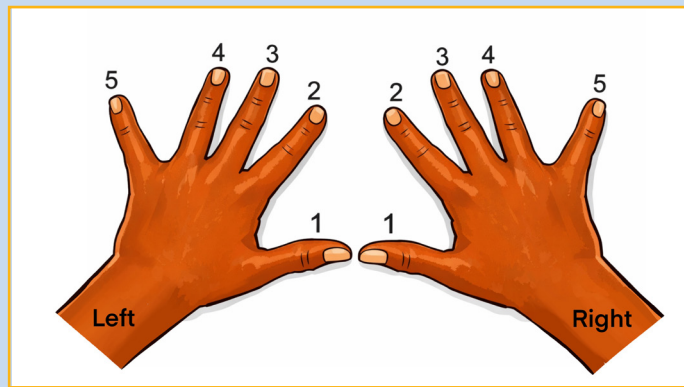

When accompanying songs, a piano keyboard is one of the suitable instruments that is used. How are its keys arranged and how are the human hands used to play it?

3.5.1. The structure of the piano keyboard

On the piano keyboard you notice that there are two sets of keys: Black keys and white keys. The black keys are in groups of two and three keys. When you want to play piano you have to localize the middle C. Middle C is an important reference note on the piano.

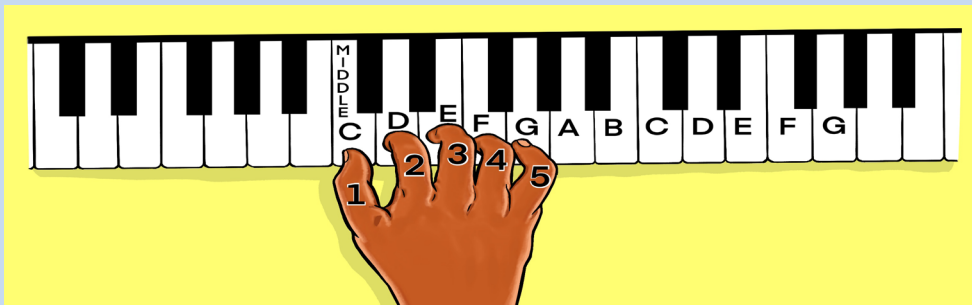

For the piano playing, our fingers are given numbers. Below is a chart that shows the finger numbers:

3.5.2. Playing the piano with right hand

When we have note on a treble staff, we play the piano using the right hand (RH). With your right hand (RH), the thumb plays middle C as reference key diving bass notes as indicated on the piano below.

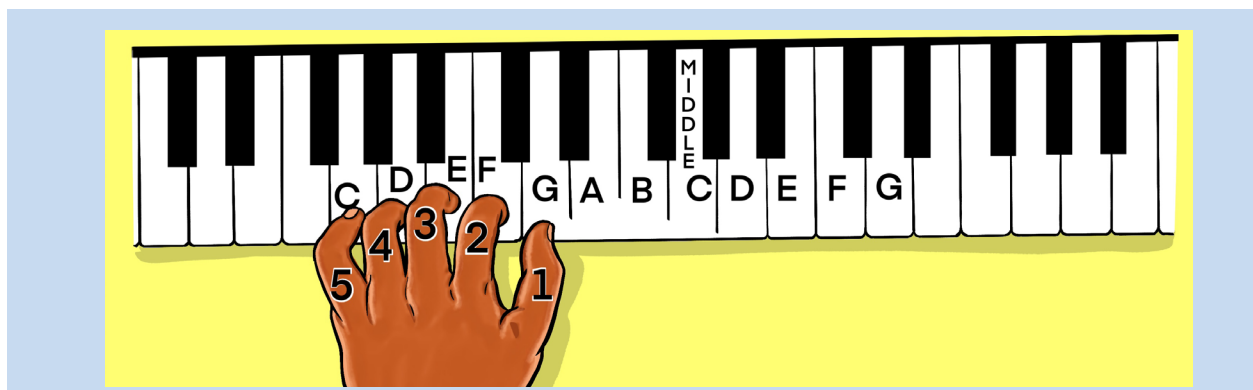

Sol-fa and play on piano keyboard the following pieces of music using your right hand.

3.5.3. Playing the piano with Left hand

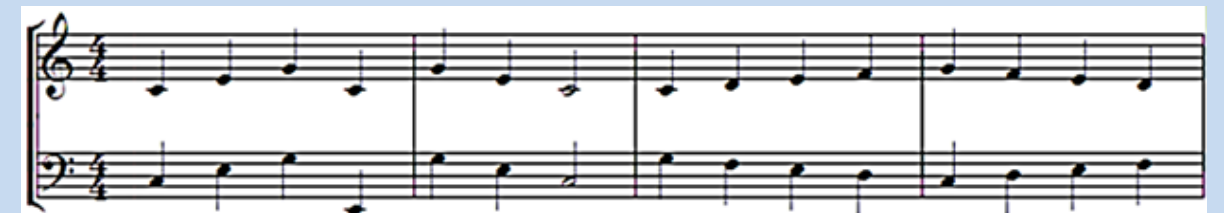

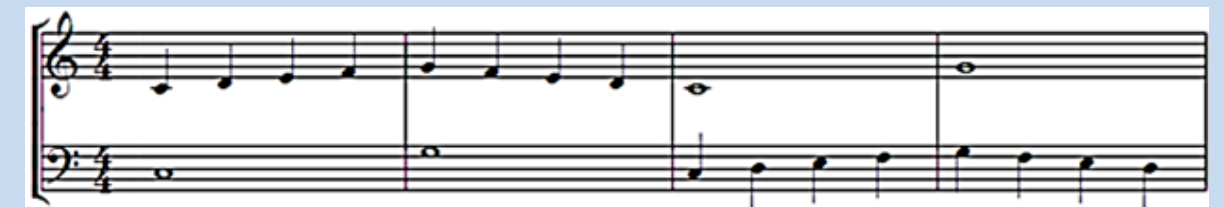

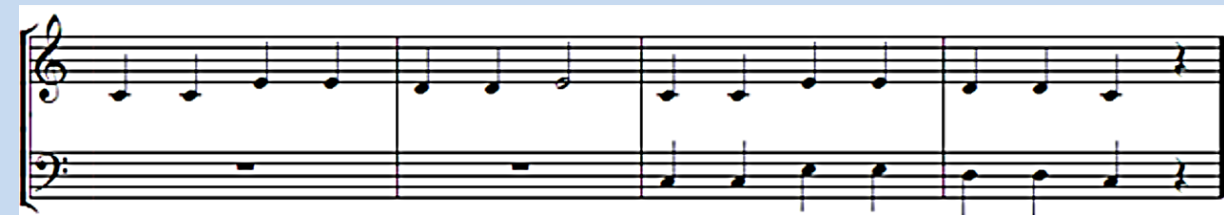

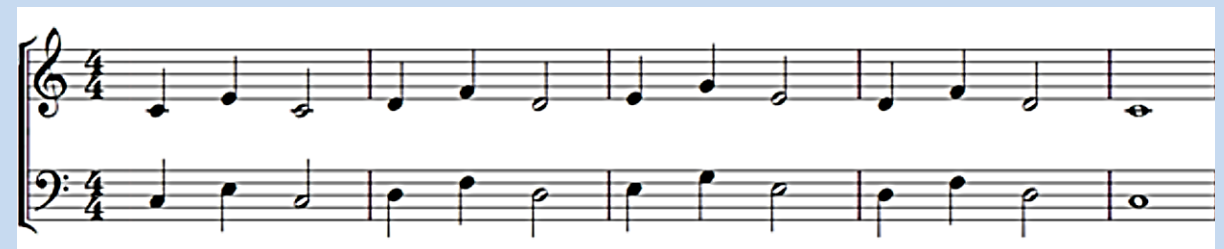

When we have note on a bass staff, we play the piano with left hand

Sol-fa and play on piano keyboard the following pieces of music using your left hand

3.5.4. Playing the piano with both hands

When we have notes on the grand staff, we play the piano using both Right and left hands. The grand staff is formed by combining the treble staff and bass staff joined together with a brace

APPLICATION ACTIVITY 3.5

Play the following melodies on the piano keyboard using the correct hand:

END OF UNIT ASSESSMENT

PART A: KNOWLEDGE AND UNDERSTANDING

1. Define the following terms:

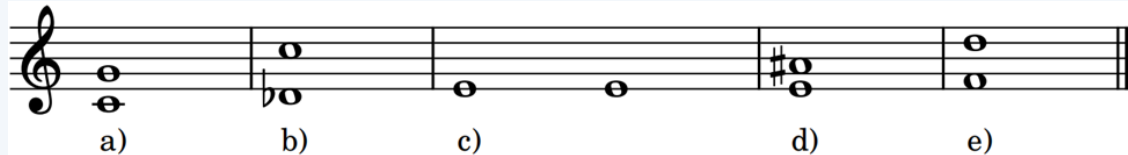

- a) Semitone
- b) Tone
- c) Interval

2. Study the piano keyboard illustration below and answer the questions.

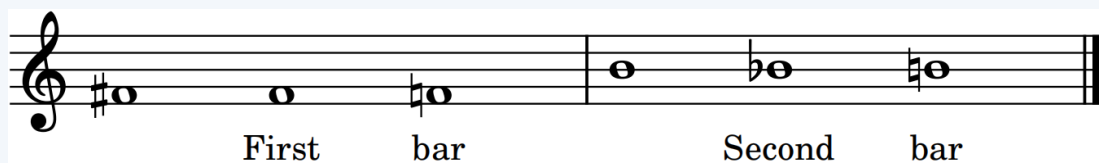

- a) Circle **two pairs of notes** that form a **semitone**.
- b) Circle **three pairs of notes** that form a **tone**.

3. Using the C major scale, name the following intervals:

PART B: SKILLS

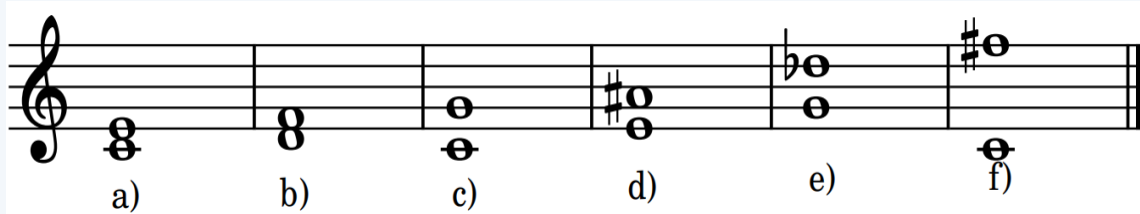

1. Observe the musical staff below:

- a) Name the accidentals used in the first bar and explain their effects.
 - b) Why does the second F remain sharp even without a sharp sign?
 - c) What does the natural sign do in this example?
2. Write the enharmonic equivalent of the following notes:

- a) C# = _____
- b) D# = _____
- c) F# = _____
- c) B = _____
- d) C = _____

3. Describe the number and quality of the following intervals:

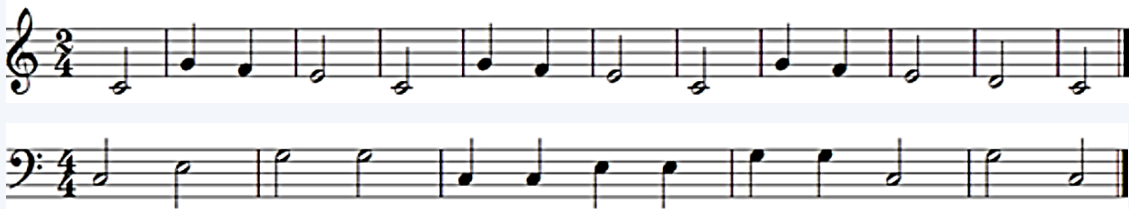

a) Explain the difference between a major and a minor interval. (4 marks)

b) Using a musical staff, draw: one major 3rd, one minor 3rd, one Perfect 5th and one diminished 7th

4. Using tones (T) and semitones (S), write the pattern of the major scale starting from Do.

5. Using the correct hand, play the following notes on the piano keyboard:

PART C: ATTITUDES & VALUES

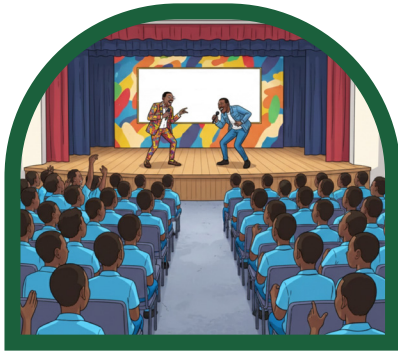

a) Why is patience important when learning pitch and intervals?

b) How does working with others help you sing or identify intervals better?

c) Mention one-way music helps you improve listening skills.

UNIT DEVELOPMENT: 4

UNIT 4

INTRODUCTION TO DRAMA

Key unit competence:

By the end of the units, the students will be able to act out characters.

Domain expected learning outcomes

Knowledge

- Define drama, play and theatre
- Explain basic elements of drama/ a play
- Differentiate the types of drama

Skills

- Analyze simple dramatic scenes or a short story
- Role play/act out roles of characters in a simple dramatic scene, or a short story

Attitudes and Values

- Appreciate the role of drama in communication, and social awareness.
- Develop teamwork/ cooperation while acting out a dramatic scene or a short story
- Show confidence in performing before peers Show respect shown when welcoming peers' ideas during discussions

Introduction

Drama is an art form that tells stories through performance using action, speech, and movement. It involves elements like characters, plot, setting, dialogue, and theme, and helps build confidence, communication, cooperation, and creativity through role-playing.

Introductory activity 4

Read the following story and answer the question that follow it:

The unexpected performance

One afternoon, during lunch break, a group of Senior One students gathered under a tree in the school compound. They began to act out a short story about a strict teacher called Muhirwa when he meets a late student.

Some students laughed as the story was very funny. Others noticed that the "teacher" becomes very serious and angry. A student called Murenzi acted as the narrator, while others took different roles. They spoke to each other, moved around, crowded forms. When the bell rang, the students stopped and returned to class.

Questions:

1. What were the learners doing under the tree?
2. Who were the characters?
3. Where did the story take place?
4. What was the main idea of the story?
5. Did it make you laugh or think?
6. Based on how the story made you feel and how it ended, would you say it is

4.1. Drama, play and theatre

Learning activity 4.1

1. Before the learners acted out the story, what do you think they had to prepare or write first?
2. What do we call the written script work used by actors?
3. What do we call the place where people perform for an audience?
4. What happens to a story when it is performed with music, movement, and dialogue?

4.1.1. Drama

Drama is a genre of literature that involves telling a story through dialogue and action, primarily intended for theatrical performance.

4.1.2. Play

A play refers to a work of drama which is a written composition intended for performance in a theatre.

4.1.3. Theatre

A **theatre** is a place where **drama or plays are performed live** in front of an audience. It is where actors act out a story on a stage, using speech, movement, and expression.

APPLICATION ACTIVITY 3.5

1. Define drama in your own words.
2. What is a play?
3. What is a theatre?
4. Explain the difference between drama and play.

4.2. Types of drama

Learning activity 4.2

1. Can you give an example of a play or story that made you laugh, feel serious, or both, and explain how it made you feel?
2. Why do you think some plays are meant to make people laugh, others to teach a serious lesson, and some to mix both funny and serious moments?
3. If you were to act in a play, which type would you choose? A comedy, a tragedy, or a tragicomedy? why?

4.2.1. Comedy

Comedy is a type of drama that is meant to **entertain and make people laugh**.

Characteristics:

- Funny situations and dialogue
- Light and happy mood
- Characters may behave in a humorous way
- Usually ends happily

Example:

A short play where a learner forgets his homework and gives funny excuses that make the class laugh.

4.2.2. Tragedy

Tragedy is a serious type of drama that shows **human suffering, sadness, or failure**.

Characteristics:

- Serious and emotional story
- Characters face big problems or mistakes
- Often ends sadly
- Teaches moral lessons

Example:

A play about a learner who refuses to listen to advice and later faces serious problems.

4.2.3. Tragicomedy

Tragicomedy is a type of drama that combines both **comedy and tragedy**.

Characteristics:

- Has both funny and serious moments
- Characters experience happiness and sadness

- The ending may be mixed or thoughtful
- Reflects real-life situations

Example:

A play that starts with funny scenes among friends but later shows a serious problem that teaches a lesson.

**APPLICATION ACTIVITY 4.2**

1. Define comedy and give one example from school or everyday life.
2. Explain what tragedy is and describe a situation that could be used in a tragic play.
3. What is tragicomedy, and how does it combine elements of comedy and tragedy?
4. List two characteristics of a comedy and two characteristics of a tragedy.
5. A short play shows learners joking in the morning but facing a serious problem

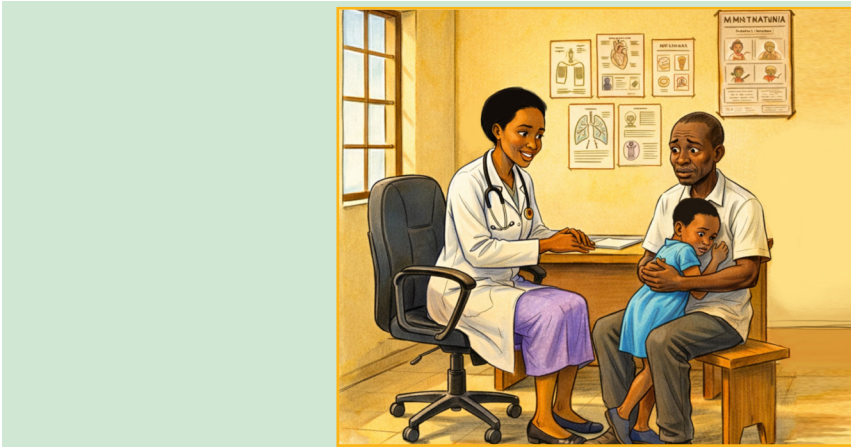

4.3. Elements of drama**Learning activity 4.3**

1. Read the dialogue and answer the questions that follow:
2. Shami was sitting in the school playground when Sangwa approached him. Below is a short conversation they made:
3. Sangwa: "Shami, why are you sitting alone?"
4. Shami: "I forgot my homework again, and I'm scared of the teacher."
5. Sangwa: "Don't worry! I will help you explain to the teacher."
6. Shami: "Thank you, Sangwa! I promise I'll be more careful next time."

Questions:

1. Who are in the dialogue?
2. What happens in the story?
3. Where does the dialogue take place?
4. What do the characters say?
5. What is the main idea or lesson?

4.3.1. The Choice

Setting: Hospital waiting room, late evening. Dim lights, tense silence, a faint heart monitor beeping in the background.

Characters:

- **Sara:** Teenage girl, brave, thoughtful, values life and honesty.
- **David:** Her father, loving but torn, struggles with guilt and fear.
- **Nurse:** Calm professional guides the family.

Plot / Scene: *(Sara sits nervously. David paces. The Nurse approaches with a folder.)*

Nurse: *(serious)* Mr. and Ms., the doctors say the treatment is risky, but it's the only chance. We need your decision tonight.

David: *(voice shaking)* I... I can't decide. It feels like choosing life or death.

Sara: *(tears in her eyes, steady)* Dad... I've thought about this. I want to try. We can't give up before we even try.

David: *(angrily, then softens)* But... what if something goes wrong? What if I lose you?

Sara: *(takes his hand)* I'm scared too. But we'll face it together. Courage isn't the absence of fear; it's doing what's right despite it.

David: *(David looks at her, his eyes filling with tears. He takes a deep breath.)* You're right. We'll do it. No regrets. Whatever happens, we face it together.

Nurse: *(The Nurse nods, smiling gently)*. Then it's decided. Sara, you'll receive the treatment. We'll be with you every step.

Sara and David: *(Sara and David hug tightly, both breathing heavily. The tension lifts as hope replaces fear. David whispers)*.

David: I'm proud of you, Sara. No matter what, we've done the right thing.

Sara: *(smiles, holding David's hand firmly)*. They walk together toward the treatment room, ready to face the challenge.)

Drama Elements Highlighted:

- **Conflict:** David's internal fear versus moral responsibility; Sara's courage versus uncertainty.
- **Characters:** Fully developed emotional arcs. Sara shows bravery and moral clarity; David evolves from fear to support and courage.
- **Dialogue:** Reveals deep emotions, moral struggle, and resolution.
- **Setting:** Hospital waiting room, emphasizing urgency and tension.
- **Plot:** Conflict - confrontation - choice - emotional resolution - action taken.
- **Themes:** Courage, moral responsibility, family love, facing life's difficult choices.

Therefore, the key elements of drama include:

- **Conflict:** The struggle between opposing forces, usually between characters, which drives the narrative.
- **Characters:** The individuals portrayed in the drama, each with their unique traits and developments.
- **Themes:** The underlying ideas or concepts addressed in the drama.
- **Dialogue:** The spoken lines by characters, crucial for plot advancement and character development.
- **Setting:** The time and place where the drama unfold.
- **Plot:** The way events are organised in in a story or drama: the beginning (introduction of characters and setting), the middle (problems or conflicts), and the ending (how the problem is solved), is a plot, a sequence of events in a drama, including exposition, rising action, climax, falling action, and resolution

**APPLICATION ACTIVITY 4.3**

1. Explain what conflict means in a drama.
2. Name two things dialogue helps to achieve in a drama.
3. an appropriate term used to define the way events are organised in in a story or drama: the beginning (introduction of characters and setting), the middle (problems or conflicts), and the ending (how the problem is solved).
4. Why is setting important in a drama?
5. Give an example of a theme you might find in a drama.
6. Think about a character in the play "The choice". Describe one value or positive attitude they showed and explain how it influenced the story

4.4. Role playing

Role playing is a drama activity in which learners **act out different characters or situations**. Learners imagine themselves in real or fictional roles and express thoughts, feelings, and actions through performance.

Learning activity 4.4

Read the following activity and answer the questions that follow:

"Today, we are going to try role playing. This means pretending to be someone else to understand how they feel or think."

1. Have you ever acted like someone else to know how they feel? How did you feel after that?
2. "How can pretending to be another person help us learn about their life, feelings, or decisions?"

4.4.1. Elements of role playing

1. Characters

Characters are the people or beings in a sketch or drama. Each character has a role and purpose in the story. Each character has personality traits, goals, and a way of speaking or acting.

2. Situation

The situation is the problem, event, or scenario that the sketch shows. It answers the questions: What is happening? Why are the characters acting this way? The situation gives context for the story and makes the drama meaningful.

3. Dialogue

Dialogue is the words spoken by the characters. It shows what they think, feel, or want. Dialogue helps the audience understand the story. It must be short, simple, and natural in classroom sketches.

4. Actions

Actions are the physical movements and reactions of the characters. They include gestures, facial expressions, walking, running, or any movement that shows what the character is doing. Actions should match the dialogue and emotions. They make the sketch realistic and engaging for the audience.

5. Emotions

Emotions are the feelings that characters show through voice, face, and body. Emotions help the audience connect with the story. They should match the situation, dialogue, and actions.

4.4.2. Steps in role playing

1. Choose a situation or problem

This step involves selecting a real-life scenario or problem that learners will act out. It can be a theme such as preventing the violence against children, helping a neighbour in need, use of digital tools safely and effectively, the importance of using AI in education, etc.

2. Assign roles to students

Roles are the characters or parts each student will play in the role play. Each student should have a clear role and responsibility, and roles should match students' abilities and interests.

3. Allow preparation time

Preparation time is the period for students to plan and rehearse their roles. Students discuss dialogue, actions, and emotions.

4. Perform the role play

This is the actual acting out of the situation in front of the class or audience. Students use voice, body movements, and facial expressions. They demonstrate their understanding of the situation and roles. The performance should be clear, engaging, and meaningful.

5. Discuss and reflect after acting

Reflection involves talking about the role play to evaluate learning and behaviour. Students discuss what went well and what could be improved. They identify lessons learned from the situation.

4.4.3. Dialogue: You are not alone

Musa: (sitting alone) Sometimes I feel invisible. Since my parents died, life feels heavier every day.

Clara: (sits near him) Losing your parents is painful, Musa. But being an orphan does not mean being forgotten.

Musa: People expect me to be strong, but they don't see the fear I carry.

Mr. Jean: True strength is not hiding pain. It is facing it and allowing others to help.

Musa: I try to work and survive, but I fear my future will be empty.

Clara: Your future is still open. Support, education, and guidance can change your path.

Musa: (looking up) Do you really believe someone like me can succeed?

Mr. Jean: Yes. And as a community, we must stand with you. No child should face life alone.

Clara: (warmly) You belong here, Musa. Your life still has meaning.

Musa: (voice calmer) Thank you... for seeing me.

APPLICATION ACTIVITY 4.4

1. List three elements of role playing and give a short explanation for each.
2. What is the purpose of allowing preparation time before performing a role play?
3. Why is it important to reflect and discuss after performing a role play?
4. How can role playing help learners understand the feelings of others, such as Musa in the dialogue?
5. Imagine you are performing this dialogue. How would you show Musa's fear and Clara's support through actions and expressions?

END OF UNIT ASSESSMENT

PART A: KNOWLEDGE AND UNDERSTANDING

Answer the following questions.

1. Define the following terms:
 - a) Drama
 - b) Play
 - c) Theatre
2. List three basic elements of drama.
3. Differentiate between comedy and tragedy.
4. Give one example of a tragicomedy.

PART B: SKILLS

Scene:

Jeanine: (worried) Emmanuel, did you bring the extra copies of the exam questions? We need them to study together.

Emmanuel: (nervous, avoiding eye contact) Oh no... I think I left them in my bag at home. I'm sorry, Jeanine.

Teacher Uwimana: (sternly) Emmanuel! This is important. How do you plan to solve this problem?

Jeanine: (thinking quickly) Teacher, maybe we can reconstruct the questions from memory while Emmanuel fetches the papers tomorrow.

Emmanuel: (relieved, sighs) Thank you for understanding. I promise to be more careful next time.

Teacher Uwimana: (softens, nods) Alright. Make sure this does not happen again. Responsibility is key.

Questions:

1. Perform the scene using appropriate voice, facial expressions, and gestures.
2. Show Emmanuel's nervousness or fear using body language and movement.
3. Show Jeanine's concern and problem-solving attitude through gestures and expressions.
4. Suggest an alternative ending or solution to the problem.
5. Choose a real-life situation (e.g., preventing violence, helping a neighbour, safe use of digital tools) and prepare your dialogue, actions, and emotions, then perform your role play in front of the class.

PART C: ATTITUDES AND VALUES

1. How did you show or understand the emotions of the characters in the scene?
2. Give an example of a character's feeling you related to personally, and how you expressed it in your acting.
3. How did performing this scene help you understand the importance of being responsible?

UNIT DEVELOPMENT: 5

UNIT 5

PERFORMING SKETCHES IN KINYARWANDA

Key unit competence:

By the end of the unit, the students will be able to act out characters.

Domain expected learning outcomes

Knowledge

- Describe the process of composing a sketch.
- Explain how to express emotions through performance.

Skills

- Create a short sketch script in Kinyarwanda on a chosen theme.
- Use voice, body movement and expression effectively while performing a sketch.

Attitudes and Values

- Appreciate drama as a form of art and communication.
- Demonstrate confidence during performance.
- Show teamwork/cooperation through group works.
- Show empathy as a result of socializing with characters in a sketch
- Promote unity through working with others

Introduction

In this unit, students will explore creating and performing short sketches in Kinyarwanda to express ideas, emotions, and real-life situations. The unit builds communication skills, confidence, creativity, clear speaking, active listening, and cooperation through role play and performance.

Introductory activity 5

Scenario: Ijwi ry'Inshuti

Mugisha: (enters slowly, looking worried, avoiding eye contact): "Uyu muni mfite ibibazo byinshi. Sinzi uwo nabibwira."

Muhoza: (stands up, concerned, moves closer): "Mugisha, byagenze bite? Nanjye ko mbona usa n'ubabaye cyane? Ni ukuri biragaragara mu maso pee!"

Mugisha: (voice low, pauses): "Ndumva ntatuje muri njye rwose. Byangora kwiga no gutekereza."

Muhoza: (gentle voice, nods): "Ndabyumva. Nyamara ubyemeye nagufasha. Urankundira umbwire ibyakubayeho?"

(They pause.)

1. What do you think is happening in this short scene?
2. How did Mugisha and Muhoza use their voices, faces, or body movements to show feelings?
3. If this scene continued, what other actions or dialogue would you add to make it a complete sketch in Kinyarwanda?
4. How can performing such sketches help us communicate messages in real life?

5.1. Steps in composing a sketch

Learning activity 5.1

1. If you wanted to act a story, what would be the first thing you need to decide?
2. How do you think deciding what characters say and do can make your sketch more interesting?
3. Why do you think practicing and performing your sketch carefully is

In drama, composing a sketch involves a multi-stage process that moves from initial ideation to final performance. The key steps involve choosing a theme and situation, then create characters, plan dialogue and actions, and finally rehearse the sketch. Following these steps helps us communicate messages, show emotions, and work together as a team.

1. **Choose a theme and situation:** Decide what the sketch is about and the problem or event to act out.
2. **Create characters:** Decide who will appear in the sketch and their roles.
3. **Plan dialogue and actions:** Write what characters say and how they move or show feelings.
4. **Rehearse the sketch:** Practice using voice, body movements, and expressions effectively.

APPLICATION ACTIVITY 5.1

1. How does rehearsing help improve a sketch performance?
2. Given a theme "Abafite ubumuga nabo barashoboye". Create a sketch about it?

5.2. Steps in performing a sketch

Learning activity 5.2

1. If you could act out any story from your life or the news, what would it be and why?
2. How do you think using your voice, body, and face can make a story more exciting for others to watch?

Performing a sketch is bringing a story to life. We use voice, body, and expressions to show emotions, share a message, and work together as a team. It helps us communicate, build confidence, and understand others better.

Assign roles:

- Decide who will play each character in the sketch.
- Ensure everyone has a clear role and responsibility.

Rehearse the sketch:

- Practice speaking the dialogue clearly.
- Use appropriate **voice, body movements, and facial expressions**.
- Work as a team to coordinate actions and timing.

Perform the sketch:

- Act it out in front of an audience confidently.
- Show the emotions and actions clearly.

Reflect and evaluate:

- Discuss what went well and what could be improved.
- Give and receive feedback from peers and teacher.

APPLICATION ACTIVITY 5.2

1. Why do you think practicing and working together is important before performing a sketch?
2. What do you think you can learn about other people's feelings by acting as different characters?
3. In the previous lesson, you have composed a sketch on the theme "Abafite ubumuga nabo barashoboye". Now, choose the characters and perform it with peers?

END OF UNIT ASSESSMENT

PART A: KNOWLEDGE AND UNDERSTANDING

1. What is a sketch?
2. Arrange the steps of composing a sketch
3. Why is it important to choose a theme before composing a sketch?
4. Give two things an actor should do when performing a sketch.

PART B: SKILLS

1. In groups, choose one of the following themes and compose a sketch following the steps of composition:
 - **Gukumira amakimbirane no kuyakemura mu mahoro** (Conflict prevention and peaceful problem-solving)
 - **Gukumira ihohoterwa rishingiye ku gitsina** (Prevention of gender-based violence)
 - **Uburezi budaheza** (uburezi bugenewe bose) (Inclusive Education)
 - **Gukoresha neza umutungo kamere** (Proper use of natural resources)
 - **Uburenganzira n'inshingano z'abaturage** (Rights and responsibilities of citizens)
 - **Gukumira inda zitateganyijwe hakiri kare n'ihohoterwa** (Prevention of early pregnancy and abuse)
2. In the same groups, perform the composed sketch following the steps of performing a sketch:
3. What did your group do well during the performance?
4. What can be improved next time?

PART C: ATTITUDES AND VALUES

1. What did you do to show respect for others' ideas during group work?
2. What responsibility were you given in your group, and how did you fulfil it?
3. What message about good behaviour or peaceful living did your sketch show?
4. How can the lesson from your sketch help you behave better in real life?
5. What value did you learn from performing a sketch about the theme of your group?
